PRODUCT MANAGER | DIGITAL PRODUCTS, B2C/B2B SAAS & DATA-DRIVEN DELIVERY

PROFESSIONAL SUMMARY

- Product Manager with 5+ years of experience owning B2C and B2B digital products across the full lifecycle, from discovery and strategy through requirements, UX, development, launch, analytics, and optimization. Combines consumer eCommerce ownership with B2B SaaS experience, payments and API integrations, and data-informed decision-making using GA4 and Firebase. Strong at translating business needs and user behavior into clear product priorities and cross-functional execution.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - August 2026

- Owned strategy, roadmap, and end-to-end delivery for a B2B SaaS product, from discovery and business goals through requirements, launch, KPI tracking, and continuous improvement.
- Translated customer, Support, Sales, business, and operational input into PRDs, user stories, UX flows, acceptance criteria, business rules, edge cases, and prioritized development tasks.
- Led product workstreams across onboarding, business profiles, verification, activation, subscriptions, payments, analytics, and post-signup experience.
- Aligned Engineering, UX, QA, Data, Marketing, Support, Sales, leadership, and vendors on scope, tradeoffs, priorities, release readiness, rollout, and follow-up using Jira and Figma.
- Led API integrations with invoicing, payment, and CRM systems, reading technical documentation, defining requirements, mapping dependencies, and validating end-to-end behavior.
- Used GA4, Firebase, customer feedback, product-admin data, defects, and support signals to identify friction and prioritize improvements; mobile traffic share increased from 10% to 60% following mobile UX and campaign-flow changes.
- Used Cursor, Claude, ChatGPT, and Codex for discovery, research, requirements, UX exploration, working prototypes, and technical feasibility validation.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and led a D2C eCommerce product from zero, owning the platform, customer journey, pricing, payments, operations, suppliers, staffing, budget, and go-to-market execution.
- Acted as product owner for an external development company, leading discovery, requirements, UX planning, delivery reviews, acceptance testing, launch, issue resolution, and post-launch changes.
- Used customer feedback, user behavior, sales, service, and operational data to improve product priorities, workflows, and the end-to-end customer journey.
- Managed parallel workstreams and vendors across technology, marketing, logistics, packaging, payment processing, and customer operations.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex stakeholder input into workflows, analytical tools, reporting solutions, and process improvements for HP Indigo's industrial product line.
- Coordinated operations, planning, business, and technical stakeholders to improve performance visibility, decision-making, process consistency, and cost efficiency.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
