PROJECT MANAGER | ERP, SOFTWARE IMPLEMENTATION, INTEGRATIONS & GO-LIVE

PROFESSIONAL SUMMARY

- Project and Product Manager with extensive experience leading software, ERP, and digital initiatives from requirements and planning through implementation, UAT, Go-Live, and post-launch support. Combines hands-on SAP R/3 implementation experience with B2B SaaS, API integrations, customer and operational requirements, vendor coordination, and cross-functional delivery. Uses Jira, Figma, analytics, and AI-assisted tools to clarify requirements, accelerate documentation, and support execution.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - August 2026

- Led end-to-end delivery of B2B SaaS initiatives from business and customer requirements through specifications, development, QA, release readiness, launch, and follow-up.
- Translated customer, Support, Sales, business, and operational needs into PRDs, user stories, acceptance criteria, business rules, edge cases, UX flows, and prioritized implementation tasks.
- Led API integrations with invoicing, payment, and CRM systems, reading technical documentation, mapping data flows and dependencies, defining expected behavior, and validating end-to-end flows.
- Coordinated Engineering, UX, QA, Data, Support, Sales, Operations, leadership, and external providers on scope, timelines, dependencies, issue resolution, and release readiness using Jira and Figma.
- Used GA4, Firebase, product-admin data, defects, and support signals to validate behavior, identify friction, and prioritize corrective and improvement work.
- Used Claude, ChatGPT, Cursor, and Codex for research, requirements, documentation, prototypes, and technical feasibility validation.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a D2C eCommerce business, managing the digital platform, suppliers, staffing, logistics, payments, budget, customer service, and day-to-day operations.
- Managed an external development company from requirements and UX planning through delivery reviews, acceptance testing, launch, issue resolution, and post-launch changes.
- Coordinated technology, logistics, packaging, payment, credit-card, and marketing vendors across multiple parallel workstreams and operational dependencies.
- Built working procedures and used customer, sales, service, and operational data to improve workflows, exception handling, and service delivery.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex stakeholder input into workflows, analytical tools, reporting solutions, and process improvements for HP Indigo's industrial product line.
- Coordinated operations, planning, business, and technical stakeholders to improve performance visibility, decision-making, process consistency, and cost efficiency.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
