SENIOR PRODUCT MANAGER | B2B SAAS, OPERATIONAL PLATFORMS & COMPLEX SYSTEMS

PROFESSIONAL SUMMARY

Product Manager with 5+ years of experience owning digital products from discovery through launch and iteration, focused on B2B SaaS, operational workflows, and complex systems. Translates customer and business needs into roadmaps, PRDs, UX flows, and scalable product capabilities while partnering closely with Engineering, Design, QA, Data, and business teams. Strong technical orientation across web technologies, APIs, integrations, analytics, and release dependencies, using customer feedback and product data to guide priorities and measure impact.

PROFESSIONAL EXPERIENCE

CallApp | **Product Manager, Branded & Verified Caller Identity** | March 2023 - August 2026

- Owned product vision, roadmap, and end-to-end lifecycle for a B2B SaaS product spanning acquisition, onboarding, verification, activation, subscriptions, payments, analytics, and integrations across international markets.
- Turned customer conversations, Sales and Support feedback, market signals, and operational needs into PRDs, user stories, UX flows, acceptance criteria, business rules, edge cases, and prioritized backlogs.
- Partnered with Engineering, UX, QA, Data, Marketing, Support, Sales, and senior stakeholders through scoping, implementation, testing, release readiness, rollout, and post-launch iteration.
- Used GA4 and Firebase to monitor funnels, behavior, defects, and product performance, identify friction, and evaluate outcomes; mobile traffic share increased from 10% to 60% after mobile UX and campaign-flow improvements.
- Led API integrations with Green Invoice, Isracard, PayMe, and CRM systems, defining product logic, data flows, dependencies, expected behavior, testing, and cross-system implementation with internal teams and external providers.
- Iterated pricing, packaging, subscription flows, and localized experiences across international markets while managing multiple initiatives and coordinating business and technical stakeholders.

Tapuhi | **Founder, Product & Operations Manager** | January 2017 - December 2022

- Founded and led a D2C eCommerce product from zero, owning the digital platform and the operational system behind ordering, payments, inventory, warehouse, fulfillment, delivery, customer service, suppliers, and business performance.
- Used customer feedback, sales, service, and operational data to identify needs and opportunities, prioritize product and workflow improvements, and iterate quickly in a fast-changing environment.
- Defined requirements and managed an external development company from UX planning through development, acceptance testing, launch, bug resolution, and new features; later implemented website changes independently.
- Managed parallel workstreams and vendors across technology, digital marketing, logistics, payments, and customer service; recruited, trained, and managed approximately 20 employees.
- Scaled the business to over NIS 80K in monthly revenue within five months and more than NIS 450K in its first seven months while continuously improving customer and operational workflows.

HP (HPE) | **Business Analyst** | January 2015 - December 2016

- Gathered requirements, modeled operational data, and translated complex stakeholder input into workflows, analytical tools, reporting solutions, and process improvements for HP Indigo's industrial product line.
- Coordinated operations, planning, and technical stakeholders and delivered solutions supporting data-driven decisions, performance visibility, and cost-reduction initiatives.

HP (HPE) | **Material Planner Analyst** | January 2013 - December 2014

- Managed planning across six operational divisions; analyzed inventory and operational exceptions, coordinated suppliers, wrote work manuals, and trained four logistics specialists.

SAP WIN | **Project Manager** | February 2012 - January 2013

- Managed a year-long SAP R/3 implementation at the Tneta manufacturing site across Production and Accounting, coordinating developers and client users through requirements, planning, testing, training, Go-Live, and post-launch support while working onsite most of the week.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022

SKILLS & TOOLS

Product Strategy & Delivery: discovery, customer research, roadmaps, full product lifecycle, PRDs, user stories, wireframes/UX flows, prioritization, QA/release coordination, Jira, Figma

Technical & Analytics: B2B SaaS, web technologies, APIs, integrations, data flows, GA4, Firebase, KPI/funnel analysis, basic SQL, JavaScript

AI & Cross-Functional: Claude, ChatGPT, Cursor, Codex, AI-assisted research/specification/prototyping, Engineering/UX/QA/Data/business alignment

Languages: Hebrew: Native; English: Fluent
