PRODUCT MANAGER | B2B SAAS, FINANCIAL WORKFLOWS & AI

PROFESSIONAL SUMMARY

Product Manager with 5+ years of experience owning digital products end to end, combining B2B SaaS execution with strong business ownership. Experienced across payments, invoicing, subscriptions, APIs, integrations, complex workflows, analytics, and cross-functional delivery. Hands-on with AI tools for research, specifications, prototyping, and validation, with founder/operator experience in pricing, unit economics, customer operations, and financial workflows.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, CallApp for Business | March 2023 - August 2026

- Owned product strategy, roadmap, and end-to-end delivery for a self-serve B2B SaaS product spanning onboarding, verification, activation, subscriptions, payments, analytics, and integrations across international markets.
- Translated customer, Sales, Support, Marketing, and operational needs into scalable product flows, PRDs, user stories, business rules, edge cases, acceptance criteria, and prioritized delivery plans.
- Led product and API integrations with Green Invoice (morning), Isracard, PayMe, and CRM systems across invoicing and payment flows, defining requirements, data flows, dependencies, expected behavior, testing, and rollout with internal teams and external providers.
- Worked closely with Engineering, UX, QA, Data, Sales, Marketing, and Support through scoping, implementation, release, and iteration, balancing customer value, technical constraints, and business priorities.
- Used GA4 and Firebase to analyze funnels, user behavior, defects, support signals, and product performance, identify friction, and guide priorities; mobile traffic share increased from 10% to 60% following targeted mobile UX and campaign-flow improvements.
- Defined and iterated pricing, packaging, paywall placement, and subscription flows, using performance data and customer feedback to improve activation, conversion, and the end-to-end commercial journey.
- Built working prototypes with Cursor and AI tools and used Claude, ChatGPT, and Codex for research, specifications, UX exploration, and validation, accelerating discovery and decision-making before development.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a D2C eCommerce business, owning the digital product, customer journey, pricing, payments, acquisition, operations, suppliers, budget, and business performance.
- Owned unit economics and commercial decisions across pricing, margins, channel spend, payroll, supplier settlements, fulfillment, and customer service, using sales and operational data to guide priorities.
- Scaled the business to over NIS 80K in monthly revenue within five months and more than NIS 450K in its first seven months while building and managing an approximately 20-person operation.
- Defined product requirements and managed external development from UX planning through testing, launch, issue resolution, and new features; combined customer feedback, conversion signals, and operating data to improve purchase, payment, fulfillment, and service workflows.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex stakeholder input into workflows, analytical tools, reporting solutions, and process improvements for HP Indigo's industrial product line.
- Coordinated operations, planning, business, and technical stakeholders and built solutions supporting data-driven decisions, performance visibility, and cost-reduction initiatives.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed planning across six operational divisions; analyzed inventory and operational exceptions, coordinated suppliers, wrote work manuals, and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long SAP R/3 implementation at the Tneta manufacturing site across Production and Accounting, coordinating developers and client users through requirements, planning, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
