PARTNERSHIPS & GROWTH | DIGITAL PRODUCTS, GTM & DATA-DRIVEN EXECUTION

PROFESSIONAL SUMMARY

Product and business builder with 5+ years of experience across B2B/B2C digital products, SaaS, eCommerce, go-to-market, and data-informed execution. At CallApp, worked across product, marketing, acquisition funnels, international rollout, pricing, and analytics. As founder of Tapuhi, built and scaled a consumer business while owning acquisition strategy, influencer collaborations, external partners, budgets, and the end-to-end customer journey. Combines hands-on project execution, commercial judgment, strong partner/vendor management, and daily use of AI tools for research, prototyping, content exploration, and rapid validation.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, CallApp for Business | March 2023 - August 2026

- Owned product strategy and delivery for a self-serve B2B SaaS product serving international markets, spanning onboarding, business profiles, verification, activation, subscriptions, payments, analytics, and integrations.
- Partnered with UA and Marketing on acquisition and campaign-to-product journeys; monitored audiences and funnel behavior through GA4 and Firebase and translated performance signals into product and campaign-flow improvements.
- Defined pricing, packaging, paywall placement, and localized product experiences while aligning Engineering, UX, QA, Marketing, Support, Sales, and external vendors on priorities, rollout, and follow-up.
- Used customer, Sales, Support, and market feedback to refine positioning and product priorities, and tracked KPIs across signup, activation, subscriptions, and payments to identify friction and growth opportunities.
- Led CRM, invoicing, and payment integrations and coordinated requirements across internal teams and external providers; built working prototypes with Cursor and AI tools to accelerate validation and execution.
- Used Claude, ChatGPT, Cursor, and Codex for research, documentation, UX exploration, working prototypes, and rapid testing of product and go-to-market ideas.
- Supported localized go-to-market execution across international markets, adapting acquisition-to-product journeys and using funnel performance to prioritize market-specific improvements.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and scaled a D2C eCommerce business, owning the product, customer journey, acquisition, pricing, budgets, suppliers, operations, and commercial performance from launch onward.
- Built and iterated the acquisition strategy across Google/Facebook, WhatsApp communities, and recurring collaborations with health and nutrition creators, coordinating campaign timing, messaging, content execution, and ongoing performance review.
- Used sales, conversion, customer, and operational signals to shift channel mix and improve acquisition efficiency, customer experience, and repeatable weekly demand generation.
- Scaled the business to over NIS 80K in monthly revenue within five months and more than NIS 450K in its first seven months, using channel performance and customer behavior to continuously refine acquisition and spending decisions.
- Negotiated commercial terms and managed ongoing relationships across marketing, development, logistics, payments, packaging, and suppliers, balancing budgets, execution quality, and business impact while leading an approximately 20-person operation.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and built reporting and analytical tools for HP Indigo, translating stakeholder needs into measurable process improvements.
- Coordinated business, operations, planning, and technical stakeholders and supported data-driven decisions, performance visibility, and cost-reduction initiatives.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed planning across six operational divisions, coordinated suppliers, analyzed inventory and exceptions, documented procedures, and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long client-facing SAP R/3 implementation across Production and Accounting, coordinating requirements, developers, users, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
