PRODUCT MANAGER | AI, CUSTOMER EXPERIENCE & COMPLEX WORKFLOWS

PROFESSIONAL SUMMARY

Product Manager with 5+ years of experience owning digital products and customer journeys from discovery through launch and iteration. Hands-on with AI and LLM tools for research, product specifications, prototyping, UX exploration, and problem solving. Experienced using customer feedback, support signals, behavioral data, and operational metrics to identify root causes and turn them into scalable product improvements. Works closely across Engineering, Data, Operations, Support, and business teams, with strong experience in APIs, integrations, analytics, and complex workflows.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - August 2026

- Owned product vision, roadmap, and end-to-end lifecycle for a B2B SaaS product spanning onboarding, business profiles, verification, activation, subscriptions, payments, analytics, and integrations across international markets.
- Turned customer conversations, Support and Sales feedback, behavioral signals, and operational needs into PRDs, user stories, UX flows, acceptance criteria, business rules, edge cases, and prioritized product improvements.
- Partnered with Engineering, UX, QA, Data, Support, Sales, Marketing, and senior stakeholders from discovery through implementation, release, rollout, and iteration, balancing customer experience with operational and commercial needs.
- Used GA4 and Firebase funnels, user behavior, defects, and support signals to identify root causes, prioritize high-impact changes, and measure outcomes; mobile traffic share increased from 10% to 60% following mobile UX and campaign-flow improvements.
- Led API integrations with Green Invoice, Isracard, PayMe, and CRM systems, defining product logic, dependencies, expected behavior, testing, and cross-system implementation with internal teams and external providers.
- Iterated customer-facing and operational journeys across activation, subscriptions, payments, and localized experiences, using data and feedback to improve usability and business outcomes.
- Used Claude, ChatGPT, Cursor, and Codex hands-on for research, product specification, UX exploration, working prototypes, problem solving, and feasibility validation.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and led a D2C eCommerce product from zero, owning the digital platform, end-to-end customer journey, customer service, operations, suppliers, budget, and business performance.
- Used customer feedback, recurring service issues, sales trends, and operational data to identify root causes and improve discovery, purchase, fulfillment, and customer-service workflows.
- Defined requirements and managed an external development company from UX planning through development, acceptance testing, launch, bug resolution, and new features; later implemented website changes independently.
- Managed parallel workstreams and vendors across technology, digital marketing, logistics, payments, fulfillment, and customer service; recruited, trained, and managed approximately 20 employees.
- Scaled the business to over NIS 80K in monthly revenue within five months and more than NIS 450K in its first seven months, using customer and operational signals to guide rapid iteration.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered requirements, modeled operational data, and translated complex stakeholder input into workflows, analytical tools, reporting solutions, and process improvements for HP Indigo's industrial product line.
- Coordinated operations, planning, and technical stakeholders and delivered solutions supporting data-driven decisions, performance visibility, and cost-reduction initiatives.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed planning across six operational divisions; analyzed inventory and operational exceptions, coordinated suppliers, wrote work manuals, and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long SAP R/3 implementation at the Tneta manufacturing site across Production and Accounting, coordinating developers and client users through requirements, planning, testing, training, Go-Live, and post-launch support while working onsite most of the week.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022

SKILLS & TOOLS

Product & Customer Experience: discovery, customer and support insights, customer journeys, roadmaps, PRDs, user stories, UX flows, acceptance criteria, business rules, edge cases, prioritization, Jira, Figma

AI, Technical & Analytics: Claude, ChatGPT, Cursor, Codex, AI-assisted research/specification/prototyping, APIs, CRM, payments, integrations, GA4, Firebase, KPI/funnel analysis, basic SQL, JavaScript

Cross-Functional Delivery: Engineering, UX, QA, Data, Operations, Support, Sales and Marketing alignment, stakeholder/vendor management, launch and post-release iteration

Languages: Hebrew: Native; English: Fluent
