PRODUCT MANAGER | B2B SAAS, MOBILE GROWTH & DATA-DRIVEN PRODUCTS

PROFESSIONAL SUMMARY

Product Manager with 5+ years of experience owning B2B and B2C digital products from strategy and discovery through launch, measurement, and iteration. Combines strong product ownership with a data-driven growth mindset across mobile and web journeys, acquisition, activation, pricing, subscriptions, and monetization. Experienced translating customer, market, and business needs into roadmaps and clear requirements while partnering closely with Engineering, Design, Data, and Business teams. Hands-on with GA4, Firebase, funnel analysis, and AI-assisted research and prototyping.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, CallApp for Business | March 2023 - August 2026

- Owned product strategy, roadmap, and end-to-end delivery for a self-serve B2B SaaS product spanning acquisition, onboarding, business profiles, verification, activation, subscriptions, payments, analytics, and integrations across international markets.
- Partnered with UA and Marketing on campaign-to-product journeys and localized acquisition, reviewing audiences, conversion tracking, funnel behavior, and market signals to prioritize product and growth opportunities.
- Used GA4 and Firebase to analyze funnels, user behavior, defects, and support signals, identify friction, and guide priorities; mobile traffic share increased from 10% to 60% following targeted mobile UX and campaign-flow improvements.
- Defined and iterated pricing, packaging, paywall placement, and subscription flows, balancing customer value, conversion, commercial goals, and implementation constraints.
- Translated customer feedback, market research, Sales, Support, Marketing, and operational input into PRDs, user stories, UX flows, acceptance criteria, business rules, edge cases, and a prioritized roadmap.
- Led API integrations with Green Invoice, Isracard, PayMe, and CRM systems while coordinating requirements, dependencies, testing, and rollout with Engineering and external providers.
- Aligned Engineering, UX, QA, Data, Marketing, Support, Sales, and vendors on scope, tradeoffs, releases, and post-launch iteration; used Claude, ChatGPT, Cursor, and Codex for research, specifications, prototypes, and rapid validation.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a D2C eCommerce business, owning the business model, digital product, customer journey, pricing, acquisition, operations, suppliers, budget, and business performance.
- Built and iterated acquisition across Google/Facebook, WhatsApp communities, and recurring collaborations with health and nutrition creators, using channel performance and customer behavior to refine spend and growth decisions.
- Combined customer feedback, sales, service, conversion, and operational data to identify friction, prioritize product and journey improvements, and make fast business decisions.
- Scaled the business to over NIS 80K in monthly revenue within five months and more than NIS 450K in its first seven months while building and managing an approximately 20-person operation.
- Defined requirements and managed external development from UX planning through testing, launch, issue resolution, and new features, later implementing website changes independently.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex stakeholder input into workflows, analytical tools, reporting solutions, and process improvements for HP Indigo's industrial product line.
- Coordinated operations, planning, business, and technical stakeholders and built solutions supporting data-driven decisions, performance visibility, and cost-reduction initiatives.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed planning across six operational divisions; analyzed inventory and operational exceptions, coordinated suppliers, wrote work manuals, and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long SAP R/3 implementation at the Tneta manufacturing site across Production and Accounting, coordinating developers and client users through requirements, planning, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
