TECHNICAL PRODUCT MANAGER | B2B SAAS, PRDs & COMPLEX SYSTEMS

PROFESSIONAL SUMMARY

Technical Product Manager with 5+ years of experience owning B2B and B2C digital products from discovery through launch and post-release optimization. Translates customer, business, and operational needs into detailed PRDs, user stories, UX flows, acceptance criteria, business rules, edge cases, and prioritized delivery plans. Experienced working closely with Engineering, UX, QA, Data, Marketing, Support, and Sales across implementation details, release readiness, and follow-up. Hands-on with SaaS journeys, API integrations, GA4, Firebase, data-informed product decisions, and AI-assisted documentation, prototyping, and feasibility validation.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - August 2026

- Led product strategy, roadmap, and end-to-end delivery for a B2B SaaS product with web journeys and consumer-facing mobile experiences, from discovery and requirements through launch and optimization.
- Wrote detailed product specifications including PRDs, user stories, UX flows, acceptance criteria, business rules, edge cases, prioritized backlogs, and measurable delivery plans.
- Worked closely with Engineering, UX, QA, Data, Marketing, Support, Sales, senior stakeholders, and external vendors on scope, tradeoffs, implementation details, release readiness, rollout, and follow-up using Jira and Figma.
- Monitored GA4 and Firebase funnels, user behavior, defects, and support signals to identify friction, prioritize high-impact improvements, and evaluate post-release performance; mobile traffic share increased from 10% to 60% following mobile UX and campaign-flow changes.
- Led API integrations with Green Invoice, Isracard, PayMe, and CRM systems across invoicing and payment flows, coordinating product requirements and implementation details across internal teams and external providers.
- Used Claude, ChatGPT, Cursor, and Codex for research, documentation, UX exploration, working prototypes, and feasibility validation.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and led a D2C eCommerce product connecting farmers directly with consumers, owning the digital platform, end-to-end customer journey, acquisition activity, operations, suppliers, budget, and business performance.
- Defined requirements and managed an external development company from UX planning through delivery, acceptance testing, launch, bug resolution, post-launch optimization, and new features; later implemented website changes independently.
- Combined customer feedback, sales, service, and operational data to identify friction across discovery, purchase, fulfillment, and customer service journeys and translate insights into product and workflow improvements.
- Managed parallel workstreams and vendors across technology, digital marketing, logistics, packaging, payments, and customer service; recruited, trained, and managed approximately 20 employees.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered requirements, modeled operational data, and translated complex stakeholder input into workflows, analytical tools, reporting solutions, and process improvements for HP Indigo's industrial product line.
- Coordinated operations, planning, and technical stakeholders and delivered solutions supporting data-driven decisions, performance visibility, and cost-reduction initiatives.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed planning across six operational divisions; analyzed inventory and operational exceptions, coordinated suppliers, wrote work manuals, and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long SAP R/3 implementation at the Tneta manufacturing site across Production and Accounting, coordinating developers and client users through requirements, planning, testing, training, Go-Live, and post-launch support while working onsite most of the week.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012
Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022

SKILLS & TOOLS

Product Specification & Delivery: PRDs, user stories, UX flows, acceptance criteria, business rules, edge cases, prioritization, roadmaps, backlogs, Jira, Figma

Analytics, Technical & SaaS: GA4, Firebase, KPI/funnel analysis, APIs, CRM, payments, invoicing, basic SQL, JavaScript, WordPress/WooCommerce

AI & Collaboration: Claude, ChatGPT, Cursor, Codex, cross-functional delivery, Engineering/UX/QA collaboration, stakeholder and vendor management

Languages: Hebrew: Native; English: Fluent
