PRODUCT MANAGER | COMPLEX WORKFLOWS, UX & AI-ASSISTED CREATION

PROFESSIONAL SUMMARY

Product Manager with 5+ years of experience across B2B and B2C digital products, complex multi-step workflows, UX, prototyping, analytics, and cross-functional delivery. Owns products from discovery and roadmap definition through requirements, Figma flows, development, launch, measurement, and iteration. At CallApp, leads onboarding, verification, activation, subscription, payment, and integration journeys while aligning Engineering, UX, QA, Data, Marketing, Support, Sales, and vendors. Uses Claude, ChatGPT, Cursor, and Codex for research, documentation, UX exploration, working prototypes, and technical feasibility validation without claiming professional creative-tools domain ownership.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own product strategy, roadmap, and end-to-end delivery for a B2B SaaS product helping businesses and individuals build trust through verified digital call experiences.
- Lead onboarding, business-profile creation, phone verification, activation, subscription, and payment-related journeys, balancing business requirements with simple end-user experiences.
- Translate customer, user, Support, Sales, and operational input into PRDs, user stories, UX flows, acceptance criteria, edge cases, and prioritized product decisions.
- Use GA4 and Firebase funnels, user behavior, defects, support signals, and market research to identify friction and improve adoption; mobile traffic share increased from 10% to 60% after mobile UX and campaign-flow changes.
- Align Engineering, UX, QA, Data, Marketing, Support, Sales, senior stakeholders, and vendors on scope, dependencies, tradeoffs, launch readiness, and measurable outcomes.
- Use Claude, ChatGPT, Cursor, and Codex for discovery, PRD development, UX exploration, working prototypes, documentation, and technical feasibility validation.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a D2C eCommerce product connecting farmers directly with consumers, owning the platform, customer journey, operations, suppliers, staffing, budget, and go-to-market execution.
- Used direct customer feedback, service interactions, user behavior, sales trends, and operational data to identify friction, prioritize changes, and improve the end-to-end experience.
- Defined the product and managed an external development company from UX planning and requirements through delivery, acceptance testing, launch, bug resolution, and iterative improvements.
- Built and improved workflows across customer acquisition, order handling, fulfillment, delivery, support, supplier coordination, reporting, and operational handoffs.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
