SENIOR PRODUCT MANAGER | ANALYTICS, B2B SAAS & DATA-DRIVEN PRODUCTS

PROFESSIONAL SUMMARY

Product Manager with 5+ years of experience across B2B/B2C digital products, SaaS, analytics, complex customer journeys, integrations, and data-informed delivery. Owns products from discovery and roadmap definition through requirements, UX, development, launch, KPI tracking, and iteration. At CallApp, uses GA4, Firebase, funnels, user behavior, support signals, and operational data to identify friction and guide product priorities. Earlier business-analysis and founder/operator roles add requirements modeling, analytical tools, reporting, customer insight, and practical end-to-end business ownership.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own product strategy, roadmap, and end-to-end delivery for a B2B SaaS product spanning onboarding, verification, activation, subscriptions, payments, analytics, and integrations.
- Translate customer, business, Support, Sales, operational, and data needs into PRDs, user stories, UX flows, acceptance criteria, edge cases, and priorities.
- Use GA4 and Firebase funnels, user behavior, defects, support signals, market research, and KPIs to identify friction and guide product decisions.
- Mobile traffic share increased from 10% to 60% after targeted mobile UX and campaign-flow changes informed by behavior and funnel analysis.
- Partner with Engineering, UX, QA, Data, Marketing, Support, Sales, Operations, senior stakeholders, and vendors from discovery through iteration.
- Lead API integrations with invoicing, payment, and CRM systems, mapping data flows and dependencies, validating behavior, and resolving cross-system issues.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a D2C eCommerce product, owning the platform, customer journey, operations, suppliers, staffing, budget, and go-to-market execution.
- Used customer feedback, user behavior, sales trends, service signals, and operational data to prioritize product, journey, and process improvements.
- Defined requirements and managed an external development company from UX planning through delivery, acceptance testing, launch, issue resolution, and features.
- Built analytical and operating views across acquisition, ordering, fulfillment, payments, service, suppliers, reporting, and exception handling.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
