PRODUCT MANAGER | B2B WORKFLOWS, UX & DATA-DRIVEN DELIVERY

PROFESSIONAL SUMMARY

Hands-on Product Manager with experience across B2B/B2C digital products, SaaS, complex workflows, user journeys, analytics, integrations, and 0-to-1 digital product creation. Owns products from discovery and roadmap definition through requirements, UX, delivery, launch, measurement, and iteration. At CallApp, leads multi-step onboarding, verification, subscription, payment, and business-profile experiences. Founder/operator experience adds direct customer insight, external development management, acceptance testing, operational systems, and practical judgment in simplifying complex user and business processes.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own product strategy, roadmap, and end-to-end delivery for a B2B SaaS product spanning customer-facing workflows, analytics, subscriptions, payments, and integrations.
- Translate customer, user, Support, Sales, business, and operational needs into PRDs, workflows, UX flows, user stories, acceptance criteria, and priorities.
- Partner with Engineering, UX, QA, Data, Operations, senior stakeholders, and vendors from ambiguous problem definition through delivery and iteration.
- Use GA4, Firebase, user behavior, defects, support signals, and market research to identify friction and guide data-informed product decisions.
- Lead API integrations with invoicing, payment, and CRM systems, mapping data flows and dependencies and validating end-to-end behavior.
- Use Claude, ChatGPT, Cursor, and Codex for discovery, specifications, documentation, UX exploration, working prototypes, and feasibility validation.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a D2C eCommerce product, owning the digital platform, customer journey, product direction, operations, budget, and go-to-market execution.
- Defined requirements and managed an external development company from UX planning and delivery through acceptance testing, launch, issue resolution, and features.
- Used direct customer feedback, user behavior, sales, service, and operational data to simplify workflows and prioritize product improvements.
- Built and improved workflows across acquisition, ordering, payments, fulfillment, delivery, service, suppliers, reporting, and operational handoffs.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
