DELIVERY EXCELLENCE & TRANSFORMATION MANAGER | PROCESS, METRICS & EXECUTION

PROFESSIONAL SUMMARY

Project, Program, Product, and Operations Manager with experience improving delivery across B2B SaaS, digital, ERP, eCommerce, manufacturing-analysis, and operational environments. Converts complex priorities into requirements, workstreams, dependencies, risks, testing, implementation, KPIs, and accountable follow-through. At CallApp, coordinates parallel product and integration initiatives across business and technology teams. Earlier roles add founder-level process ownership, business analysis, supply-chain planning, SAP implementation, training, vendor management, and hands-on experience identifying friction and building practical operating routines.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own end-to-end delivery across parallel B2B SaaS initiatives, connecting discovery, requirements, planning, development, QA, launch, measurement, and iteration.
- Translate business, user, Support, Sales, and operational inputs into structured workstreams, priorities, dependencies, acceptance criteria, and follow-up actions.
- Track blockers, defects, risks, sequencing, testing, release readiness, and outcomes across onboarding, verification, subscriptions, payments, analytics, and integrations.
- Use GA4, Firebase, KPIs, funnels, user behavior, defects, and support signals to identify bottlenecks and guide measurable improvements.
- Align Engineering, UX, QA, Data, Operations, business stakeholders, senior leaders, and vendors on scope, tradeoffs, status, and delivery commitments.
- Use Jira, Figma, AI-assisted research and documentation, working prototypes, and feasibility checks to improve clarity and execution speed.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a D2C eCommerce product, owning the digital platform, team, budget, suppliers, service, fulfillment, and operating model.
- Established operating procedures across intake, ordering, fulfillment, delivery, returns, customer service, reporting, payments, and exception handling.
- Recruited and managed approximately 20 employees, trained teams, and coordinated technology, logistics, marketing, packaging, payment, and service vendors.
- Used customer, sales, service, and operational data to identify recurring friction, improve workflows, and support reliable day-to-day delivery.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
