SENIOR PRODUCT MANAGER | B2B/B2C SAAS, WEB PRODUCT & ANALYTICS

PROFESSIONAL SUMMARY

Product Manager with 5+ years of experience across B2B and B2C digital products, SaaS, eCommerce, web and mobile journeys, analytics, integrations, and end-to-end execution. Owns products from discovery, strategy, and roadmap definition through requirements, UX, development, QA, launch, measurement, and iteration. At CallApp, leads complex onboarding, verification, activation, subscription, payment, and business-profile experiences. Founder/operator experience adds 0-to-1 product creation, customer discovery, commercial judgment, external development management, and hands-on ownership of a consumer digital platform.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own product strategy, roadmap, prioritization, and end-to-end delivery for a B2B SaaS product spanning web and mobile-oriented customer journeys.
- Translate customer, business, Support, Sales, and operational needs into PRDs, specifications, user stories, UX flows, acceptance criteria, edge cases, and priorities.
- Lead onboarding, business-profile, verification, activation, subscription, payment, analytics, and integration workstreams from discovery through launch and iteration.
- Use GA4, Firebase, funnels, user behavior, defects, support signals, and market research to identify friction and guide product decisions.
- Coordinate Engineering, UX, QA, Data, Marketing, Support, Sales, Operations, senior stakeholders, and vendors using Jira and Figma.
- Use Claude, ChatGPT, Cursor, and Codex for discovery, specifications, documentation, UX exploration, working prototypes, and technical feasibility validation.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a D2C eCommerce product, owning product direction, the digital platform, customer journey, operations, budget, and go-to-market execution.
- Used direct customer feedback, user behavior, sales trends, service signals, and operational data to prioritize changes and improve the end-to-end experience.
- Defined requirements and managed an external development company from UX planning and delivery through acceptance testing, launch, issue resolution, and new features.
- Built and managed workflows across customer acquisition, ordering, payments, fulfillment, delivery, service, suppliers, reporting, and operational handoffs.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
