BUSINESS PROJECT MANAGER | PMO, PROCESSES & DATA-DRIVEN EXECUTION

PROFESSIONAL SUMMARY

Project, Program, Product, and Operations Manager with experience translating business priorities into structured initiatives, work plans, dependencies, risks, KPIs, reporting, implementation, and continuous improvement. Combines B2B SaaS delivery at CallApp, founder-level budget and operations ownership at Tapuhi, business analysis and data work at HPE, supply-chain planning, and SAP R/3 implementation. Comfortable coordinating multiple stakeholders and vendors, analyzing business and operational data, building practical processes, and maintaining clear visibility from requirements through execution and measurable follow-through.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own end-to-end delivery across parallel B2B SaaS initiatives, converting priorities into scope, requirements, milestones, dependencies, acceptance criteria, and follow-up actions.
- Coordinate Engineering, UX, QA, Data, Operations, business teams, senior stakeholders, and vendors on timelines, blockers, testing, release readiness, and outcomes.
- Lead workstreams across onboarding, verification, subscriptions, payments, analytics, CRM, and integrations while maintaining clear delivery visibility.
- Use GA4, Firebase, KPIs, funnels, user behavior, defects, support signals, and operational data to identify friction and support decisions.
- Translate business and operational needs into requirements, process flows, user stories, acceptance criteria, business rules, and prioritized tasks.
- Use Jira, Figma, Monday.com, MS Project, Excel, and AI-assisted research and documentation to structure and communicate execution.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a D2C eCommerce product, owning the platform, team, suppliers, staffing, budget, service, fulfillment, and go-to-market execution.
- Managed approximately 20 employees and coordinated technology, logistics, marketing, packaging, payment, and service vendors across daily operations.
- Established operating procedures across ordering, fulfillment, delivery, returns, service, reporting, supplier coordination, payments, and exception handling.
- Used customer, sales, service, and operational data to prioritize improvements and support reliable execution across the business.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
