PROJECT MANAGER | BUSINESS PROCESSES, SYSTEMS & END-TO-END DELIVERY

PROFESSIONAL SUMMARY

Project, Product, and Operations Manager with experience delivering software, digital, ERP, eCommerce, and operational initiatives from business needs and process definition through requirements, work plans, development coordination, testing, implementation, measurement, and continuous improvement. Brings hands-on B2B SaaS delivery at CallApp, founder-level operations at Tapuhi, business analysis and data work at HPE, and an on-site SAP R/3 implementation. Skilled at coordinating matrix teams, vendors, schedules, dependencies, and practical process improvements across business and technology environments.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own end-to-end delivery for a B2B SaaS product across discovery, requirements, planning, development, QA, launch, measurement, and iteration.
- Translate business, customer, Support, Sales, and operational needs into process flows, requirements, specifications, user stories, acceptance criteria, and tasks.
- Run parallel workstreams across onboarding, verification, subscriptions, payments, analytics, and integrations while tracking timelines, dependencies, blockers, and readiness.
- Lead integrations with invoicing, payment, and CRM systems, mapping business and data flows, validating behavior, and resolving cross-system issues.
- Use GA4, Firebase, KPIs, user behavior, defects, and support signals to analyze friction and guide process and product improvements.
- Coordinate Engineering, UX, QA, Data, Operations, business stakeholders, and external vendors using Agile/Scrum, Jira, Figma, Monday.com, and MS Project.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a D2C eCommerce product, owning the platform, operating processes, customer service, suppliers, staffing, budget, and delivery execution.
- Built procedures across order intake, fulfillment, delivery, returns, service, reporting, payment processing, supplier coordination, and exceptions.
- Defined requirements and managed an external development company from UX and planning through testing, launch, bug resolution, changes, and new features.
- Recruited and managed approximately 20 employees and coordinated technology, logistics, marketing, packaging, payment, and service vendors.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
