PRODUCT MANAGER | B2B SAAS, TECHNICAL WORKFLOWS & CUSTOMER VALUE

PROFESSIONAL SUMMARY

Product Manager with 5+ years of experience across B2B SaaS, technical workflows, API integrations, customer journeys, and data-driven delivery. Owns products from discovery and roadmap definition through requirements, UX, development, launch, measurement, and iteration. At CallApp, turns customer, business, Sales, Support, and operational needs into clear product capabilities across onboarding, verification, subscriptions, payments, analytics, and integrations. Combines technical fluency, structured problem solving, user feedback, usage data, and cross-functional execution to simplify complexity and connect product decisions with measurable customer and business value.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own strategy, roadmap, backlog, and end-to-end delivery for a B2B SaaS product spanning onboarding, verification, activation, subscriptions, payments, and business-profile management.
- Translate customer, Sales, Support, business, and operational needs into PRDs, user stories, UX flows, business rules, acceptance criteria, edge cases, and priorities.
- Coordinate Engineering, UX, QA, Data, Marketing, Operations, senior stakeholders, and vendors on scope, dependencies, tradeoffs, release readiness, and outcomes.
- Lead API integrations with Green Invoice, Isracard, PayMe, and CRM systems, mapping data flows and dependencies, validating behavior, and resolving cross-system issues.
- Use GA4 and Firebase usage and funnel data, defects, and support signals to identify friction and guide decisions; mobile traffic share increased from 10% to 60% after UX and campaign-flow changes.
- Use AI-assisted research, specifications, UX exploration, prototypes, and feasibility checks to clarify complex choices and accelerate cross-functional delivery.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a D2C eCommerce product, owning the platform, customer journey, operations, suppliers, staffing, budget, and go-to-market execution.
- Worked directly with customers and operational users, combining feedback, user behavior, sales trends, and service data to prioritize product and workflow improvements.
- Defined requirements and managed an external development company from UX planning through delivery, acceptance testing, launch, bug resolution, changes, and new features.
- Designed workflows across suppliers, orders, fulfillment, delivery, returns, service, payments, reporting, and exceptions, aligning digital behavior with operational outcomes.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
