PROJECT MANAGER | COMPLEX DELIVERY, CUSTOMERS, VENDORS & OPERATIONS

PROFESSIONAL SUMMARY

Project, Product, and Operations Manager with experience leading complex digital, software, ERP, and operational initiatives from requirements and planning through testing, launch, delivery, and continuous improvement. Coordinates customers, Engineering, UX, QA, Data, Operations, senior stakeholders, suppliers, and external development partners across scope, timelines, dependencies, risks, budgets, and acceptance. Combines current B2B SaaS delivery at CallApp with founder-led responsibility for suppliers, staffing, budget, fulfillment, service, and vendor execution, plus earlier business analysis, supply-chain planning, and SAP R/3 implementation experience.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own roadmap and end-to-end delivery for a B2B SaaS product, coordinating initiatives from discovery and requirements through development, QA, launch, measurement, and continuous improvement.
- Translate customer, Support, Sales, business, and operational needs into PRDs, user stories, UX flows, acceptance criteria, business rules, edge cases, dependencies, and actionable work.
- Run parallel workstreams across onboarding, verification, activation, subscriptions, payments, analytics, and integrations while tracking scope, dependencies, risks, blockers, defects, and release readiness.
- Align Engineering, UX, QA, Data, Marketing, Support, Sales, Operations, senior stakeholders, and external vendors on priorities, delivery plans, trade-offs, testing, and outcomes.
- Led integrations with Green Invoice, Isracard, PayMe, and CRM systems, reading technical documentation, defining requirements, validating end-to-end flows, and resolving cross-system issues.
- Use Jira and Figma for delivery coordination and GA4 and Firebase for KPI and funnel analysis; use AI-assisted workflows for research, documentation, solution exploration, and feasibility validation.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and led a D2C eCommerce product and operation, owning the platform, customer experience, suppliers, staffing, budget, fulfillment, service, and go-to-market execution.
- Acted as product owner and primary client for an external development company, leading requirements, UX, delivery reviews, acceptance testing, launch, bug resolution, and new features.
- Managed vendors and parallel workstreams across software, marketing, logistics, packaging, payments, and customer service, coordinating priorities, handoffs, issue resolution, and operational delivery.
- Established an operating center, recruited and managed approximately 20 employees, and created procedures for intake, order processing, picking, packing, delivery, returns, and customer service.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
