INFORMATION SYSTEMS PROJECT MANAGER | IMPLEMENTATION, TRAINING & DELIVERY

PROFESSIONAL SUMMARY

Information Systems Project and Product Manager with experience delivering software, B2B SaaS, ERP, integration, and operational initiatives from business analysis and requirements through development, QA, implementation, training, Go-Live, support, and continuous improvement. Converts business and user needs into specifications, work plans, dependencies, acceptance criteria, and actionable tasks. Coordinates Engineering, QA, Data, Operations, users, stakeholders, and external vendors. Brings hands-on SAP R/3 implementation, process documentation, user training, external development management, analytical reporting, and basic SQL.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own roadmap and end-to-end delivery for a B2B SaaS product, coordinating work from discovery and requirements through development, QA, launch, KPI tracking, and continuous improvement.
- Translate business, user, and operational needs into requirements, specifications, workflows, work plans, dependencies, acceptance criteria, and development tasks.
- Coordinate Engineering, QA, Data, Operations, users, stakeholders, and vendors across development, testing, implementation, training, support, and improvement workstreams.
- Coordinate Engineering, UX, QA, Data, Operations, senior stakeholders, and vendors using Agile/Scrum, Jira, Figma, Monday.com, and MS Project.
- Led API integrations with Green Invoice, Isracard, PayMe, and CRM systems, working through documentation, requirements, flow validation, dependencies, and issue resolution.
- Managed a year-long SAP R/3 implementation across Production and Accounting modules, leading requirements, planning, testing, training, Go-Live, and post-launch support.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and led a D2C eCommerce product, with end-to-end responsibility for the digital platform, customer experience, operations, suppliers, staffing, budget, and GTM execution.
- Defined requirements and managed an external development company from UX planning through delivery, acceptance testing, launch, bug resolution, and new features.
- Managed parallel workstreams and vendors across technology, marketing, logistics, packaging, payments, and customer service, coordinating priorities, handoffs, and execution.
- Created work procedures, established an operating center, recruited and managed approximately 20 employees, and used operational data to improve delivery and service processes.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, mapped complex production processes, and translated findings into workflows, analytical tools, and process improvements.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
