PRODUCT MANAGER | COMPLEX B2B PRODUCTS, DATA FLOWS & SOLUTIONS

PROFESSIONAL SUMMARY

Product Manager with 5+ years of experience across B2B SaaS, complex digital workflows, API integrations, operational data, and end-to-end product delivery. Owns products from discovery and roadmap definition through requirements, UX, development, testing, launch, measurement, and iteration. At CallApp, leads multi-system onboarding, verification, subscription, payment, analytics, and CRM-related flows. Combines customer and business discovery, structured requirements, data-flow thinking, technical documentation, prototyping, and cross-functional coordination with earlier business-analysis, SAP implementation, and operational leadership experience.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own product strategy, roadmap, backlog, and delivery for a B2B SaaS product spanning onboarding, verification, activation, subscriptions, payments, analytics, and business-profile workflows.
- Translate customer, Sales, Support, business, and operational needs into PRDs, user stories, UX flows, business rules, acceptance criteria, edge cases, and priorities.
- Coordinate Engineering, UX, QA, Data, Marketing, Operations, senior stakeholders, and vendors on scope, dependencies, tradeoffs, testing, release readiness, and iteration.
- Lead API integrations with invoicing, payment, and CRM systems, reading documentation, mapping data flows and dependencies, validating end-to-end behavior, and resolving issues.
- Use GA4 and Firebase funnels, user behavior, defects, and support signals to identify friction and guide decisions; mobile traffic share increased from 10% to 60% after UX and campaign-flow changes.
- Use Claude, ChatGPT, Cursor, and Codex for research, specifications, documentation, UX exploration, working prototypes, and technical feasibility validation.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a D2C eCommerce product, owning the digital platform, customer journey, operations, suppliers, staffing, budget, and go-to-market execution.
- Defined requirements and managed an external development company from UX planning and delivery through acceptance testing, launch, bug resolution, changes, and new features.
- Designed workflows and data-informed decisions across supplier intake, order processing, fulfillment, delivery, returns, service, payments, reporting, and exceptions.
- Managed technology, marketing, logistics, packaging, payment-processing, and credit-card vendors, coordinating requirements, dependencies, delivery, and issue resolution.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
