PROJECT MANAGER | SOFTWARE DELIVERY & CROSS-FUNCTIONAL EXECUTION

PROFESSIONAL SUMMARY

Project and Product Manager with experience delivering B2B SaaS, consumer digital products, eCommerce platforms, ERP implementations, and operational initiatives from planning through launch and post-release support. Translates business, user, and client needs into requirements, specifications, work plans, user stories, acceptance criteria, dependencies, and actionable tasks. Experienced coordinating Engineering, UX, QA, Data, Marketing, Support, business stakeholders, and external vendors across parallel workstreams. Brings hands-on Agile delivery, Jira and Figma usage, risk and issue follow-through, acceptance testing, technical fluency, and a practical bias toward clear communication and completed outcomes.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own roadmap and end-to-end delivery for a B2B SaaS product, coordinating work from discovery and requirements through development, QA, launch, KPI tracking, and continuous improvement.
- Translate customer, Support, Sales, business, and operational input into clear PRDs, user stories, UX flows, acceptance criteria, business rules, edge cases, and development tasks.
- Run parallel workstreams across onboarding, verification, activation, subscriptions, payments, analytics, and integrations while tracking scope, dependencies, blockers, defects, and release readiness.
- Coordinate Engineering, UX, QA, Data, Marketing, Support, Sales, senior stakeholders, and external vendors using Agile/Scrum, Jira, and Figma.
- Led API integrations with Green Invoice, Isracard, PayMe, and CRM systems, working through documentation, requirements, flow validation, dependencies, and issue resolution.
- Use Claude, ChatGPT, Cursor, and Codex for research, specifications, UX and solution exploration, working prototypes, and technical feasibility validation.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and led a D2C eCommerce product, with end-to-end responsibility for the digital platform, customer experience, operations, suppliers, staffing, budget, and GTM execution.
- Acted as product owner and primary client for an external development company, leading discovery, requirements, UX, delivery reviews, testing, launch, bug resolution, and new features.
- Managed parallel workstreams and vendors across technology, marketing, logistics, packaging, payments, and customer service, coordinating priorities, handoffs, and execution.
- Created work procedures, established an operating center, recruited and managed approximately 20 employees, and used operational data to improve delivery and service processes.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022

SKILLS & TOOLS

Project Delivery: Planning, scope, timelines, dependencies, risks, requirements, specifications, user stories, acceptance testing, release readiness, Agile/Scrum

Tools & Technical: Jira, Figma, Confluence, Monday.com, MS Project, APIs, CRM, GA4, Firebase, SAP R/3, basic SQL, JavaScript

Collaboration, AI & Languages: Cross-functional teams, stakeholder/vendor management, Claude, ChatGPT, Cursor, Codex | Hebrew: Native; English: Fluent
