## B2B SAAS PRODUCT MANAGER | MOBILE WORKFLOWS & ADOPTION

### PROFESSIONAL SUMMARY

Product Manager with 5+ years of experience across B2B and B2C digital products, mobile and web-oriented journeys, complex workflows, onboarding, adoption, API integrations, and data-driven execution. Owns products from discovery and roadmap definition through requirements, UX, delivery, launch, measurement, and iteration. At CallApp, leads branded and verified caller identity journeys that connect businesses and users across onboarding, verification, activation, subscriptions, and payments. Aligns Engineering, UX, QA, Data, Marketing, Support, Sales, Operations, and external vendors around simple experiences and measurable outcomes.

### PROFESSIONAL EXPERIENCE

#### CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own product strategy, roadmap, and end-to-end delivery for a B2B SaaS product helping businesses and individuals build trust through verified mobile call experiences.
- Lead onboarding, business-profile creation, phone verification, activation, subscription, and payment-related journeys across web and mobile-oriented experiences.
- Translate customer, user, Support, Sales, and operational input into PRDs, user stories, UX flows, acceptance criteria, edge cases, and prioritized product decisions.
- Use GA4 and Firebase funnels, user behavior, defects, support signals, and market research to identify friction and improve adoption and customer journeys.
- Align Engineering, UX, QA, Data, Marketing, Support, Sales, senior stakeholders, and vendors on scope, dependencies, tradeoffs, launch readiness, and measurable outcomes.
- Use Claude, ChatGPT, Cursor, and Codex for discovery, PRD development, UX exploration, working prototypes, documentation, and technical feasibility validation.

#### Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a D2C eCommerce product connecting farmers directly with consumers, owning the platform, customer journey, operations, suppliers, staffing, budget, and go-to-market execution.
- Used direct customer feedback, service interactions, user behavior, sales trends, and operational data to identify friction, prioritize changes, and improve the end-to-end experience.
- Defined the product and managed an external development company from UX planning and requirements through delivery, acceptance testing, launch, bug resolution, and iterative improvements.
- Built and improved workflows across customer acquisition, order handling, fulfillment, delivery, support, supplier coordination, reporting, and operational handoffs.

#### HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

#### HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

#### SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

### EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
