SENIOR PRODUCT MANAGER | B2B SAAS, FINANCIAL WORKFLOWS & ANALYTICS

PROFESSIONAL SUMMARY

Product Manager with 5+ years of experience across B2B SaaS, digital products, operational and payment-related workflows, analytics, and API integrations. Owns products from discovery and roadmap definition through requirements, UX, delivery, launch, measurement, and iteration. At CallApp, leads multi-step onboarding, verification, subscription, payment, CRM, and reporting-related journeys while coordinating Engineering, UX, QA, Data, Sales, Support, Operations, and vendors. Earlier business-analysis and founder/operator experience adds structured financial, operational, and customer judgment to complex product decisions.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own product strategy, roadmap, backlog, and end-to-end delivery for a B2B SaaS product spanning onboarding, verification, activation, subscriptions, payments, and business-profile workflows.
- Translate customer, Sales, Support, business, operational, and data needs into PRDs, user stories, UX flows, acceptance criteria, business rules, edge cases, and priorities.
- Coordinate Engineering, UX, QA, Data, Marketing, Operations, senior stakeholders, and vendors on scope, dependencies, tradeoffs, testing, release readiness, and measurable outcomes.
- Use GA4 and Firebase funnels, user behavior, defects, and support signals to identify friction and guide decisions; mobile traffic share increased from 10% to 60% after UX and campaign-flow changes.
- Lead integrations with invoicing, payment, and CRM providers, mapping requirements and data flows, validating end-to-end behavior, and resolving cross-system issues.
- Use AI-assisted research, specifications, documentation, UX exploration, prototypes, and technical feasibility checks to clarify complex workflow and data decisions.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a D2C eCommerce product, owning the platform, customer journey, suppliers, fulfillment, staffing, budget, service, and go-to-market execution.
- Used customer feedback, sales trends, payment, service, and operational data to identify friction, prioritize product changes, and improve business performance.
- Defined requirements and managed an external development company through UX, delivery, acceptance testing, launch, issue resolution, and iterative improvements.
- Built workflows and reporting across orders, payments, suppliers, inventory, fulfillment, delivery, returns, customer service, and operational exceptions.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
