SENIOR PRODUCT MANAGER | RETAIL OPERATIONS, DATA & WORKFLOW PRODUCTS

PROFESSIONAL SUMMARY

Product Manager with 5+ years of experience across B2B/B2C digital products, retail and eCommerce operations, customer journeys, analytics, and complex workflows. Owns products from discovery and roadmap definition through requirements, UX, delivery, launch, measurement, and iteration. Combines B2B SaaS leadership at CallApp with founder/operator experience building a D2C commerce platform and the operating model behind it. Skilled at translating user, commercial, and operational needs into clear product decisions while aligning Engineering, UX, Data, Sales, Support, Operations, and external partners.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own product strategy, roadmap, backlog, and end-to-end delivery for a B2B SaaS product spanning onboarding, verification, activation, subscriptions, payments, and business-profile workflows.
- Translate user, customer, Sales, Support, and operational needs into PRDs, user stories, UX flows, acceptance criteria, edge cases, and prioritized product improvements.
- Coordinate Engineering, UX, QA, Data, Marketing, Operations, Sales, senior stakeholders, and vendors on scope, dependencies, tradeoffs, launch readiness, and outcomes.
- Use GA4 and Firebase funnels, behavior, defects, and support signals to identify friction and guide decisions; mobile traffic share increased from 10% to 60% after UX and campaign-flow changes.
- Lead API integrations with invoicing, payment, and CRM providers, mapping data flows and dependencies, validating end-to-end behavior, and resolving cross-system issues.
- Use AI-assisted research, specifications, UX exploration, prototypes, and feasibility checks to clarify alternatives and accelerate delivery decisions.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a D2C eCommerce product connecting farmers directly with consumers, owning the digital platform, customer journey, suppliers, fulfillment, staffing, budget, and go-to-market execution.
- Designed workflows across supplier intake, inventory decisions, order processing, picking, packing, delivery, returns, service, payments, reporting, and exception handling.
- Used customer feedback, sales trends, and operational data to identify friction, prioritize changes, and improve the end-to-end commerce and service experience.
- Established an operating center and recruited, trained, and managed approximately 20 employees while coordinating software, marketing, logistics, packaging, and payment vendors.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
