TECHNICAL PROJECT MANAGER | PROGRAM DELIVERY, RISKS & RELEASE READINESS

PROFESSIONAL SUMMARY

Technical Project, Program, and Product Manager with experience delivering B2B SaaS, digital products, integrations, ERP implementation, and operational initiatives across parallel workstreams. Converts priorities into requirements, timelines, dependencies, risks, acceptance criteria, dashboards, quality checks, release plans, and accountable follow-through. Coordinates Product, Engineering, UX, QA, Data, Operations, senior stakeholders, and external vendors using Jira and Figma. Brings hands-on API integration, SAP R/3 Go-Live, analytical reporting, process improvement, and practical founder/operator accountability.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own roadmap, backlog, and end-to-end delivery for a B2B SaaS product, coordinating parallel initiatives from discovery and scoping through testing, launch, measurement, and iteration.
- Translate company priorities into workstreams, requirements, timelines, dependencies, risks, acceptance criteria, dashboards, and actionable tasks.
- Coordinate Product, Engineering, UX, QA, Data, Operations, senior stakeholders, and vendors on sequencing, blockers, quality, testing, release readiness, and outcomes.
- Maintain visibility across onboarding, verification, subscriptions, payments, analytics, and integrations while documenting decisions, handoffs, risks, and follow-up actions.
- Use GA4, Firebase, support signals, defects, and operational data to identify trends, guide priorities, and support KPI-driven reviews and process improvements.
- Use Claude, ChatGPT, Cursor, and Codex for research, documentation, workflow exploration, specifications, prototypes, and technical feasibility validation.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and managed a D2C eCommerce business, coordinating product development, customer experience, suppliers, fulfillment, staffing, budget, service delivery, and go-to-market execution.
- Built operating procedures and workflows across supplier intake, order handling, picking, packing, delivery, returns, customer service, reporting, and exception management.
- Managed multiple vendors and workstreams across software, marketing, logistics, packaging, payments, and credit-card services, aligning priorities, handoffs, risks, and execution.
- Established an operating center and recruited, trained, and managed approximately 20 employees while using sales and operational data to improve performance and processes.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022

SKILLS & TOOLS

Technical Program Delivery: Workstreams, timelines, dependencies, risks, quality, dashboards, acceptance testing, release readiness and follow-through

Technical & Data: Jira, Figma, APIs, integrations, GA4, Firebase, KPIs, reporting, SAP R/3, MS Project and basic SQL

Cross-functional Leadership: Product, Engineering, Design, QA, Data, Operations and vendor alignment | Hebrew: Native; English: Fluent
