## TECHNICAL PROJECT MANAGER | DATA, AI & CROSS-FUNCTIONAL DELIVERY

### PROFESSIONAL SUMMARY

---

Technical Project and Product Manager with experience delivering B2B SaaS, analytics, API integrations, ERP implementation, and operational programs from requirements through testing, launch, and continuous improvement. Coordinates Engineering, QA, UX, Data, business stakeholders, and vendors across workstreams, dependencies, risks, acceptance criteria, and release decisions. Brings GA4 and Firebase event analysis, basic SQL and full-stack foundations, a year-long SAP R/3 implementation, analytical reporting, and hands-on use of AI tools for research, specifications, documentation, prototypes, and technical feasibility validation.

### PROFESSIONAL EXPERIENCE

---

#### **CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present**

- Own roadmap, backlog, and end-to-end delivery for a B2B SaaS product, coordinating initiatives from discovery and requirements through development, QA, launch, measurement, and iteration.
- Translate business, user, operational, and data needs into PRDs, specifications, user stories, event requirements, acceptance criteria, dependencies, and actionable tasks.
- Coordinate Engineering, QA, Data, UX, Marketing, senior stakeholders, and external vendors on requirements, sequencing, risks, validation, defects, and release readiness.
- Lead API integrations with invoicing, payment, and CRM systems, reading documentation, mapping data flows, validating end-to-end behavior, and resolving cross-system issues.
- Use GA4 and Firebase event and funnel data to monitor progression, identify drop-offs, and guide decisions; mobile traffic share increased from 10% to 60% after UX and campaign-flow changes.
- Use Claude, ChatGPT, Cursor, and Codex to research solutions, structure requirements, draft specifications, explore data and UX flows, build prototypes, and support feasibility validation.

#### **Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022**

- Founded and managed a D2C eCommerce product, with end-to-end ownership of the digital platform, customer experience, operations, suppliers, staffing, and budget.
- Defined requirements and managed an external development company through UX planning, delivery reviews, acceptance testing, launch, bug resolution, and new features.
- Managed technology, marketing, logistics, payment, and service vendors, coordinating data and operational dependencies and issue resolution.
- Analyzed customer, sales, service, and operational data and built reporting workflows to improve prioritization, delivery processes, and day-to-day decisions.

#### **HP (HPE) | Business Analyst | January 2015 - December 2016**

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

#### **HP (HPE) | Material Planner Analyst | January 2013 - December 2014**

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

#### **SAP WIN | Project Manager | February 2012 - January 2013**

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

### EDUCATION

---

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022

### SKILLS & TOOLS

---

**Technical Delivery:** Plans, scope, dependencies, risks, requirements, specifications, data flows, acceptance testing, release readiness, Jira, Figma

**Data & Integrations:** GA4, Firebase, event tracking, KPIs, APIs, CRM, basic SQL, JavaScript, SAP R/3, Excel

**AI Tools & Languages:** Claude, ChatGPT, Cursor, Codex, research, documentation and prototyping | Hebrew: Native; English: Fluent
