B2B SAAS PRODUCT MANAGER | FINANCIAL WORKFLOWS & INTEGRATIONS

PROFESSIONAL SUMMARY

B2B Product Manager with 5+ years of experience across SaaS and digital products, complex multi-step workflows, invoicing, payment-related journeys, CRM and API integrations, analytics, and operational systems. Owns products from discovery and roadmap definition through requirements, UX, delivery, launch, measurement, and iteration. At CallApp, leads subscriptions, payments, invoicing, CRM, and verification workflows while partnering with Engineering, UX, QA, Data, Operations, business teams, and vendors. Founder/operator and SAP R/3 experience add practical customer, supplier, accounting-process, service, and workflow judgment without claiming dedicated AP/AR domain ownership.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own strategy, roadmap, and end-to-end delivery for a B2B SaaS product spanning onboarding, verification, activation, subscriptions, payments, and business-profile management.
- Translate customer, business, Support, Sales, and operational needs into PRDs, business rules, user stories, UX flows, acceptance criteria, edge cases, and prioritized capabilities.
- Led integrations with Green Invoice, Isracard, PayMe, and CRM systems, reading documentation, mapping data flows and dependencies, validating end-to-end behavior, and resolving issues.
- Partner with Engineering, UX, QA, Data, Operations, business teams, and vendors to simplify complex multi-step workflows and reduce operational friction.
- Use GA4 and Firebase funnels, support signals, defects, and operational insights to identify bottlenecks, prioritize improvements, and validate outcomes after release.
- Use AI-assisted research, specifications, UX exploration, working prototypes, and technical feasibility checks to clarify alternatives and accelerate cross-functional decisions.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a D2C eCommerce product connecting farmers directly with consumers, with end-to-end ownership of the digital platform and the operational systems supporting it.
- Designed workflows across supplier intake, order processing, fulfillment, delivery, returns, customer service, payment processing, reporting, and day-to-day exception handling.
- Defined requirements and managed an external development company from UX and delivery through acceptance testing, launch, bug resolution, changes, and new features.
- Used user, sales, service, and operational data to improve customer journeys, reduce friction, refine handoffs, and prioritize product and workflow improvements.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
