HEAD OF PRODUCT | STRATEGY, DIGITAL GROWTH & CROSS-FUNCTIONAL DELIVERY

PROFESSIONAL SUMMARY

Product leader with 10+ years across product management, project delivery, business analysis, entrepreneurship, and operations. Currently owns strategy, roadmap, and execution for a B2B SaaS product spanning onboarding, verification, subscriptions, payments, analytics, and integrations. Previously founded and led a D2C eCommerce business, combining product ownership with staffing, budget, suppliers, service, fulfillment, and go-to-market accountability. Brings strategic prioritization, customer and commercial judgment, hands-on delivery, analytical decision-making, and the ability to align technical, business, operational, and external teams around clear outcomes.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own product strategy, roadmap, backlog, and end-to-end delivery for a B2B SaaS product serving businesses and users through trusted digital call experiences.
- Turn customer, market, Sales, Support, operational, and technical input into product priorities, PRDs, UX flows, acceptance criteria, and measurable decisions.
- Align Engineering, UX, QA, Data, Marketing, Operations, Sales, senior stakeholders, and vendors on scope, sequencing, tradeoffs, release readiness, and outcomes.
- Use GA4 and Firebase funnels, user behavior, defects, support signals, and market research to guide direction; mobile traffic share increased from 10% to 60% after UX and campaign-flow changes.
- Lead integrations with invoicing, payment, and CRM systems, connecting strategic priorities with technical requirements, data flows, partner dependencies, and validation.
- Use AI-assisted discovery, documentation, UX exploration, prototypes, and technical feasibility checks to improve decision quality and execution speed.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and led a D2C eCommerce product and business, owning product direction, customer experience, suppliers, operations, staffing, budget, service, and go-to-market execution.
- Established an operating center and recruited, trained, and managed approximately 20 employees while coordinating multiple functional and vendor workstreams.
- Defined the product and led an external development company from requirements and UX through delivery, acceptance testing, launch, issue resolution, and new features.
- Used customer, sales, service, and operational data to prioritize improvements across the digital journey, fulfillment model, and daily business performance.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
