PRODUCT MANAGER | DIGITAL PRODUCTS, UX & ANALYTICS

PROFESSIONAL SUMMARY

Product Manager with 5+ years of experience across B2B and B2C digital products, eCommerce, web and mobile journeys, analytics, and cross-functional delivery. Owns products from discovery and roadmap definition through requirements, UX, development, QA, launch, KPI tracking, and continuous improvement. At CallApp, uses GA4 and Firebase to identify friction and guide product decisions across complex customer journeys. Founder/operator experience adds direct customer insight, digital marketing, work planning, budget ownership, vendor management, and hands-on delivery of a consumer-facing digital platform.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own product strategy, roadmap, and end-to-end delivery for a B2B SaaS digital product, from discovery and requirements through UX, development, QA, launch, measurement, and iteration.
- Translate customer, user, Support, Sales, business, and operational needs into PRDs, product specifications, UX flows, user stories, acceptance criteria, edge cases, and priorities.
- Coordinate Engineering, UX, QA, Data, Marketing, Support, Sales, Operations, senior stakeholders, and external vendors using Jira and Figma.
- Lead parallel workstreams across onboarding, business profiles, verification, activation, subscriptions, payments, analytics, and integrations while tracking timelines and release readiness.
- Use GA4 and Firebase funnels, user behavior, defects, support signals, and market research to identify friction and prioritize improvements; mobile traffic share increased from 10% to 60% after mobile UX and campaign-flow changes.
- Led API integrations with invoicing, payment, and CRM providers, defining requirements, mapping flows and dependencies, validating behavior, and resolving cross-system issues.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and led a D2C eCommerce digital product and operation, with responsibility for the platform, customer journey, suppliers, staffing, budget, service, fulfillment, and go-to-market execution.
- Used direct customer feedback, user behavior, sales, service, and operational data to improve digital journeys, workflows, product decisions, and day-to-day execution.
- Defined requirements and managed an external development company from UX planning and delivery through acceptance testing, launch, bug resolution, changes, and new features.
- Managed digital marketing, technology, logistics, payments, and service vendors while coordinating work plans, handoffs, issue resolution, and delivery priorities.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
