PRODUCT MANAGER | B2B SAAS, AI-ASSISTED DISCOVERY & TECHNICAL DELIVERY

PROFESSIONAL SUMMARY

Product Manager with 5+ years of experience across B2B SaaS, technical workflows, API integrations, customer discovery, and data-driven delivery. Owns products from roadmap and requirements through UX, development, validation, launch, KPI review, and iteration. At CallApp, coordinates Engineering, UX, QA, Data, Sales, Support, Operations, and vendors across complex onboarding, verification, subscription, payment, and integration flows. Uses Claude, ChatGPT, Cursor, and Codex hands-on for research, specifications, documentation, UX exploration, prototypes, and feasibility checks that accelerate structured discovery and technical decisions.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own product strategy, roadmap, backlog, and end-to-end delivery for a B2B SaaS product spanning onboarding, verification, activation, subscriptions, payments, and business workflows.
- Translate customer, Sales, Support, business, and operational needs into PRDs, user stories, UX flows, acceptance criteria, edge cases, priorities, and measurable product decisions.
- Coordinate Engineering, UX, QA, Data, Marketing, Operations, senior stakeholders, and vendors on requirements, dependencies, tradeoffs, release readiness, and iteration.
- Lead API integrations with invoicing, payment, and CRM systems, reading technical documentation, mapping data flows, validating end-to-end behavior, and resolving issues.
- Use GA4 and Firebase funnels, user behavior, defects, and support signals to identify friction and guide improvements; mobile traffic share increased from 10% to 60% after UX and campaign-flow changes.
- Use Claude, ChatGPT, Cursor, and Codex to research solutions, draft specifications, explore UX, create working prototypes, and support technical feasibility validation.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a D2C eCommerce product, owning the platform, customer journey, operations, suppliers, staffing, budget, and go-to-market execution.
- Worked directly with customers and operational users, combining feedback, behavior, sales trends, and service data to prioritize product and workflow improvements.
- Defined requirements and managed an external development company from UX planning through delivery, acceptance testing, launch, bug resolution, changes, and new features.
- Managed technology, marketing, logistics, packaging, payment-processing, and credit-card vendors across customer-facing and operational workflows.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
