PRODUCT MANAGER | B2B SAAS, COMPLEX WORKFLOWS & PLATFORM DELIVERY

PROFESSIONAL SUMMARY

Product Manager with 5+ years of experience across B2B SaaS and digital products, complex operational workflows, API integrations, user journeys, business rules, analytics, and end-to-end delivery. At CallApp, owns strategy and roadmap for onboarding, verification, activation, subscriptions, payments, and business-profile experiences, translating ambiguous needs into clear specifications, UX flows, edge cases, and shipped capabilities. Combines customer-facing product work, technical fluency, and founder/operator systems thinking to simplify detail-heavy processes and coordinate multiple workstreams across Engineering, UX, QA, Data, business teams, and external partners.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own product strategy, roadmap, prioritization, and end-to-end delivery for a B2B SaaS product spanning onboarding, verification, activation, subscriptions, payments, and business-profile management.
- Translate customer, business, Support, Sales, and operational needs into PRDs, specifications, business rules, user stories, UX flows, acceptance criteria, edge cases, and actionable priorities.
- Lead parallel workstreams and make scope and sequencing tradeoffs while aligning dependencies, testing, release readiness, and post-launch follow-through.
- Partner with Engineering, UX, QA, Data, Support, Sales, Operations, senior stakeholders, and external vendors to move complex initiatives from discovery through delivery and iteration.
- Led API integrations with Green Invoice, Isracard, PayMe, and CRM systems, mapping data flows and dependencies, validating end-to-end behavior, and resolving cross-system issues.
- Use GA4 and Firebase funnels, support signals, defects, market research, and operational insights to identify friction, prioritize improvements, and validate outcomes after release.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a D2C eCommerce product, with end-to-end ownership of the digital platform, customer journey, suppliers, staffing, budget, service, fulfillment, and go-to-market execution.
- Designed detail-heavy workflows across supplier intake, order processing, fulfillment, delivery, returns, customer service, payment processing, reporting, and exception handling.
- Defined requirements and managed an external development company from UX and delivery through acceptance testing, launch, bug resolution, changes, and new features.
- Used customer feedback, user behavior, sales, service, and operational data to untangle recurring friction and prioritize product and workflow improvements.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
