ERP PMO | TRANSFORMATION, PLANNING & RISK MANAGEMENT

PROFESSIONAL SUMMARY

PMO, Project, and Product Manager with experience coordinating ERP, digital, software, and operational transformation initiatives across work plans, budgets, milestones, dependencies, risks, resources, reporting, and vendor workstreams. Managed a year-long SAP R/3 implementation across Production and Accounting modules from requirements and planning through testing, training, Go-Live, and support. Combines an Industrial Engineering and Management background with HPE process analysis, founder-level operational accountability, and structured cross-functional governance. Uses Jira, Monday.com, MS Project, Excel, GA4, and Firebase to create visibility and follow-through.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own product strategy, roadmap, backlog, and end-to-end delivery for a B2B SaaS product, coordinating initiatives from discovery and scoping through launch, measurement, and iteration.
- Translate program priorities into requirements, milestones, dependencies, risks, budgets, resource needs, acceptance criteria, status reporting, and follow-up actions.
- Coordinate Engineering, UX, QA, Data, Marketing, Support, Sales, senior stakeholders, and vendors on scope, sequencing, risks, blockers, release readiness, and follow-up actions using Jira and Figma.
- Lead parallel workstreams across onboarding, verification, activation, subscriptions, payments, analytics, and external integrations while maintaining visibility into decisions and dependencies.
- Use GA4, Firebase, support signals, defects, and operational data to identify trends and guide decisions; mobile traffic share increased from 10% to 60% after mobile UX and campaign-flow changes.
- Managed a year-long SAP R/3 implementation across Production and Accounting modules, leading requirements, planning, developer-user coordination, testing, training, Go-Live, and support.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and managed a D2C eCommerce business, coordinating product development, customer experience, suppliers, fulfillment, staffing, budget, service delivery, and go-to-market execution.
- Built operating procedures and workflows across supplier intake, order handling, picking, packing, delivery, returns, customer service, reporting, and exception management.
- Managed vendors and workstreams across software, logistics, packaging, payments, and operations, aligning priorities, handoffs, risks, budgets, and execution.
- Established an operating center and recruited, trained, and managed approximately 20 employees while using sales and operational data to improve performance and processes.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.
