ERP PMO | SAP IMPLEMENTATION, PLANNING & GOVERNANCE

PROFESSIONAL SUMMARY

PMO, Project, and Product Manager with experience coordinating ERP, software, digital-product, and operational initiatives across work plans, milestones, dependencies, risks, budgets, reporting, stakeholders, and vendors. Managed a year-long SAP R/3 implementation across Production and Accounting modules from requirements and planning through testing, training, Go-Live, and support. Brings an Industrial Engineering and Management background, analytical reporting, process improvement, and structured cross-functional execution. Uses Jira, Figma, Monday.com, MS Project, Excel, GA4, and Firebase to create visibility and accountable follow-through.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Coordinate product and delivery workstreams from discovery and requirements through plans, development, testing, release readiness, measurement, and continuous improvement.
- Translate priorities into requirements, milestones, dependencies, risks, acceptance criteria, reporting structures, and clear follow-up actions across business and technical teams.
- Coordinate Engineering, UX, QA, Data, Marketing, Support, Sales, senior stakeholders, and vendors on scope, sequencing, risks, blockers, release readiness, and follow-up actions using Jira and Figma.
- Lead parallel workstreams across onboarding, verification, activation, subscriptions, payments, analytics, and external integrations while maintaining visibility into decisions and dependencies.
- Use GA4, Firebase, support signals, defects, and operational data to identify trends and guide decisions; mobile traffic share increased from 10% to 60% after mobile UX and campaign-flow changes.
- Managed a year-long SAP R/3 implementation across Production and Accounting modules, leading requirements, planning, developer-user coordination, testing, training, Go-Live, and support.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and managed a D2C eCommerce business, coordinating product development, customer experience, suppliers, fulfillment, staffing, budget, service delivery, and go-to-market execution.
- Built operating procedures and workflows across supplier intake, order handling, picking, packing, delivery, returns, customer service, reporting, and exception management.
- Managed multiple vendors and workstreams across software, marketing, logistics, packaging, payments, and credit-card services, aligning priorities, handoffs, risks, and execution.
- Established an operating center and recruited, trained, and managed approximately 20 employees while using sales and operational data to improve performance and processes.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.
