PRODUCT IMPLEMENTATION PROJECT MANAGER | B2B SAAS & OPERATIONS

PROFESSIONAL SUMMARY

Product and Project Manager with experience implementing and operating B2B SaaS and consumer digital products from discovery and requirements through onboarding, UX, QA, launch, support, measurement, and continuous improvement. Translates customer, business, Support, Sales, and operational input into specifications, user stories, workflows, acceptance criteria, UAT plans, and prioritized improvements. Coordinates Engineering, UX, QA, Data, Operations, stakeholders, and vendors while maintaining clear ownership of adoption, service quality, issues, and follow-through. Founder/operator experience adds practical customer-service, training, and process-design judgment.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own roadmap and end-to-end delivery for a B2B SaaS product spanning onboarding, verification, activation, subscriptions, payments, analytics, and customer-facing workflows.
- Translate customer feedback, Support, Sales, business, and operational needs into PRDs, specifications, UX flows, user stories, acceptance criteria, UAT scenarios, and development tasks.
- Coordinate Engineering, UX, QA, Data, Support, Operations, senior stakeholders, and vendors on scope, defects, blockers, release readiness, adoption signals, and post-launch follow-up.
- Coordinate Engineering, UX, QA, Data, Marketing, Support, Sales, senior stakeholders, and external vendors using Agile/Scrum, Jira, and Figma.
- Use GA4, Firebase, support signals, defects, and user behavior to identify friction, prioritize improvements, monitor adoption, and validate outcomes after release.
- Use Claude, ChatGPT, Cursor, and Codex for research, specifications, UX and solution exploration, working prototypes, and technical feasibility validation.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and led a D2C eCommerce product, with end-to-end responsibility for the digital platform, customer experience, operations, suppliers, staffing, budget, and GTM execution.
- Acted as product owner and primary client for an external development company, leading discovery, requirements, UX, delivery reviews, testing, launch, bug resolution, and new features.
- Managed parallel workstreams and vendors across technology, marketing, logistics, packaging, payments, and customer service, coordinating priorities, handoffs, and execution.
- Created work procedures, established an operating center, recruited and managed approximately 20 employees, and used operational data to improve delivery and service processes.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022

SKILLS & TOOLS

Implementation & Product Ops: B2B SaaS, onboarding, adoption, support workflows, requirements, UAT, release readiness, training and continuous improvement

UX, Data & Tools: Customer journeys, Figma, Jira, GA4, Firebase, funnels, KPIs, APIs, CRM, Monday.com, MS Project

Collaboration & Languages: Engineering, UX, QA, Data, Support, Operations and vendor coordination | Hebrew: Native; English: Fluent
