DATA PRODUCT MANAGER | INTEGRATIONS, EVENT FLOWS & DELIVERY

PROFESSIONAL SUMMARY

Product Manager with 5+ years of experience across B2B/B2C digital products, API integrations, event-based analytics, operational data, and end-to-end delivery. At CallApp, defines requirements and data flows across onboarding, verification, activation, subscriptions, payments, CRM, GA4, and Firebase, coordinating Engineering, QA, Data, UX, business stakeholders, and external vendors. Earlier business-analysis and SAP implementation roles add experience translating complex operational inputs into structured workflows and reports. Brings strong specifications, acceptance criteria, end-to-end validation, and systems thinking across data-informed product workflows.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own product strategy, roadmap, backlog, and delivery for a B2B SaaS product spanning onboarding, verification, activation, subscriptions, payments, analytics, and external integrations.
- Translate business, user, Support, Sales, operational, and data needs into PRDs, event requirements, user stories, business rules, acceptance criteria, edge cases, and priorities.
- Coordinate Engineering, QA, Data, UX, Marketing, Operations, senior stakeholders, and vendors on data requirements, dependencies, validation, defects, and release readiness.
- Lead API integrations with Green Invoice, Isracard, PayMe, and CRM systems, reading documentation, mapping data flows, validating end-to-end behavior, and resolving issues.
- Use GA4 and Firebase events and funnels to monitor progression, identify drop-offs, and guide iterations; mobile traffic share increased from 10% to 60% after UX and campaign-flow changes.
- Use AI-assisted research, specifications, documentation, prototypes, and technical feasibility checks to clarify data and integration decisions.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a D2C eCommerce product, owning the platform, customer journey, operations, suppliers, staffing, budget, and go-to-market execution.
- Used customer, sales, service, and operational data to improve purchase journeys, fulfillment processes, prioritization, reporting, and daily decisions.
- Defined requirements and managed an external development company from UX planning through delivery, acceptance testing, launch, bug resolution, changes, and new features.
- Managed technology, logistics, marketing, payment, and service vendors, coordinating data and operational handoffs across the complete commerce workflow.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
