PROJECT & CHANGE MANAGER | IMPLEMENTATION, ADOPTION & KPI

PROFESSIONAL SUMMARY

Project, Program, and Product Manager with experience leading software, information-systems, implementation, and operational initiatives across parallel workstreams. Converts priorities into requirements, roadmaps, delivery plans, milestones, dependencies, risks, acceptance criteria, rollout activities, training, adoption workflows, KPIs, and measurable follow-through. Coordinates Engineering, UX, QA, Data, business teams, users, senior stakeholders, and external vendors. Brings additional change, procedure design, training, and Go-Live experience from a year-long SAP R/3 implementation and founder-led operations.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own roadmap and end-to-end delivery for a B2B SaaS product, coordinating initiatives from discovery and scoping through testing, launch, measurement, adoption, and iteration.
- Translate business, user, Support, Sales, operational, and data needs into workstreams, requirements, milestones, acceptance criteria, dependencies, and tasks.
- Coordinate Engineering, UX, QA, Data, Operations, stakeholders, users, and vendors on sequencing, risks, testing, implementation readiness, rollout, and adoption.
- Maintain visibility across onboarding, verification, activation, subscriptions, payments, analytics, and external integrations, documenting decisions and cross-team handoffs.
- Use GA4, Firebase, support signals, defects, KPIs, and operational data to identify trends, guide priorities, and support outcome-oriented reviews.
- Use Claude, ChatGPT, Cursor, and Codex for research, specifications, documentation, UX exploration, workflow prototypes, and technical feasibility validation.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and managed a D2C eCommerce business, coordinating product development, customer experience, suppliers, fulfillment, staffing, budget, service, and go-to-market execution.
- Created procedures and trained teams across supplier intake, order handling, fulfillment, delivery, returns, customer service, reporting, and exception management.
- Managed multiple vendors and workstreams across software, marketing, logistics, packaging, payments, and operations, aligning priorities and accountable handoffs.
- Established an operating center and recruited, trained, and managed approximately 20 employees while using operational data to improve performance and processes.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
