PRODUCT MANAGER | B2B WORKFLOWS, ERP & OPERATIONAL SYSTEMS

PROFESSIONAL SUMMARY

Product Manager with 5+ years of experience across B2B SaaS, digital products, workflow design, API integrations, and operational systems. Owns products from discovery and roadmap definition through requirements, UX, delivery, testing, launch, measurement, and iteration. Combines current product leadership at CallApp with a year-long SAP R/3 implementation, earlier business analysis, and founder/operator experience building both a digital platform and the operating processes behind it. Skilled at translating complex business and user needs into clear product flows, requirements, priorities, and accountable cross-functional delivery.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own product strategy, roadmap, backlog, and end-to-end delivery for a B2B SaaS product spanning onboarding, verification, activation, subscriptions, payments, and business workflows.
- Translate customer, business, Support, Sales, and operational needs into PRDs, business rules, user stories, UX flows, acceptance criteria, edge cases, and prioritized tasks.
- Coordinate Engineering, UX, QA, Data, Operations, senior stakeholders, and vendors on requirements, dependencies, testing, release readiness, and iteration.
- Lead API integrations with invoicing, payment, and CRM systems, mapping data flows and operational dependencies and validating complete end-to-end behavior.
- Use GA4, Firebase, support signals, defects, and operational data to identify workflow friction, prioritize improvements, and evaluate outcomes after release.
- Use AI-assisted research, documentation, UX exploration, prototypes, and feasibility validation to clarify options and accelerate structured product decisions.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a D2C eCommerce product, owning the digital platform and the operational systems supporting suppliers, inventory, fulfillment, service, and payments.
- Designed workflows across supplier intake, order processing, picking, packing, delivery, returns, customer service, reporting, and exception handling.
- Defined requirements and managed an external development company from UX planning through delivery, acceptance testing, launch, bug resolution, and new features.
- Established an operating center and recruited, trained, and managed approximately 20 employees while coordinating software and operational vendors.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
