## PLATFORM PRODUCT MANAGER | B2B SAAS, WORKFLOWS & INTEGRATIONS

### PROFESSIONAL SUMMARY

---

Platform-oriented Product Manager with 5+ years of experience across B2B SaaS and digital products, customer discovery, complex workflows, API integrations, payment and CRM flows, analytics, and multi-system delivery. Translates customer and business needs into structured requirements, data flows, business rules, UX flows, acceptance criteria, and prioritized roadmaps. Partners closely with Engineering, UX, QA, Data, Operations, business teams, and vendors to simplify complex processes and reduce operational friction. Founder/operator and SAP R/3 experience add practical enterprise-workflow, process, and implementation judgment.

### PROFESSIONAL EXPERIENCE

---

#### **CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present**

- Own strategy, roadmap, and end-to-end delivery for a B2B SaaS product spanning onboarding, verification, activation, subscriptions, payments, and business-profile management.
- Translate customer, business, Support, Sales, and operational needs into PRDs, business rules, user stories, UX flows, acceptance criteria, edge cases, and prioritized platform capabilities.
- Led API integrations with Green Invoice, Isracard, PayMe, and CRM systems, mapping data flows and dependencies, validating end-to-end behavior, and resolving cross-system issues.
- Partner with Engineering, UX, QA, Data, Operations, business teams, and external vendors to balance immediate delivery needs with consistent product behavior and maintainable workflows.
- Use GA4 and Firebase funnels, support signals, defects, and operational insights to identify bottlenecks, prioritize improvements, and validate outcomes after release.
- Use AI-assisted research, specifications, UX exploration, working prototypes, and technical feasibility checks to clarify alternatives and accelerate cross-functional decisions.

#### **Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022**

- Founded and operated a D2C eCommerce product connecting farmers directly with consumers, with end-to-end ownership of the digital platform and the operational systems supporting it.
- Designed workflows across supplier intake, order processing, fulfillment, delivery, returns, customer service, payment processing, reporting, and day-to-day exception handling.
- Defined requirements and managed an external development company from UX and delivery through acceptance testing, launch, bug resolution, changes, and new features.
- Used user, sales, service, and operational data to improve customer journeys, reduce friction, refine handoffs, and prioritize product and workflow improvements.

#### **HP (HPE) | Business Analyst | January 2015 - December 2016**

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

#### **HP (HPE) | Material Planner Analyst | January 2013 - December 2014**

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

#### **SAP WIN | Project Manager | February 2012 - January 2013**

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

### EDUCATION

---

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022

### SKILLS & TOOLS

---

**Platform Product:** B2B SaaS, discovery, roadmaps, requirements, business rules, workflows, data flows, APIs, acceptance criteria, launch and iteration

**Integrations & Data:** Green Invoice, Isracard, PayMe, CRM, GA4, Firebase, basic SQL, SAP R/3, Jira, Figma

**Stakeholders & Languages:** Engineering partnership, customer/business alignment and vendor management |
