R&D PROJECT MANAGER | CROSS-FUNCTIONAL SOFTWARE DELIVERY & OPERATIONS

PROFESSIONAL SUMMARY

Project and Product Manager with experience leading complex software, implementation, and operational initiatives from scope and requirements through planning, delivery, testing, launch, and post-launch improvement. Coordinates Engineering, QA, UX, Data, business teams, senior stakeholders, and external vendors across parallel workstreams, dependencies, risks, and release decisions. Brings hands-on Jira delivery, a year-long SAP R/3 implementation, analytical process-improvement experience, and founder-level ownership of budgets, suppliers, staffing, service, and operations. Known for converting ambiguity into clear plans, accountable handoffs, and measurable execution.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own roadmap, backlog, and end-to-end delivery for a B2B SaaS product, coordinating initiatives from discovery and scoping through development, testing, launch, measurement, and iteration.
- Translate company priorities and customer, Support, Sales, business, and operational input into clear requirements, workstreams, user stories, acceptance criteria, dependencies, and tasks.
- Coordinate Engineering, UX, QA, Data, Marketing, Support, Sales, senior stakeholders, and vendors on scope, sequencing, risks, blockers, release readiness, and follow-up using Jira and Figma.
- Lead parallel workstreams across onboarding, verification, activation, subscriptions, payments, analytics, and external integrations while maintaining visibility into decisions and dependencies.
- Lead API and vendor integrations from technical documentation and data-flow mapping through end-to-end validation, defect resolution, and release readiness.
- Use GA4, Firebase, support signals, defects, and operational data to identify issues and guide priorities; use AI tools for research, documentation, specifications, and prototypes.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and managed a D2C eCommerce business, coordinating product development, customer experience, suppliers, fulfillment, staffing, budget, service delivery, and go-to-market execution.
- Built procedures and workflows across supplier intake, order handling, picking, packing, delivery, returns, customer service, reporting, and exception management.
- Managed multiple vendors and workstreams across software, marketing, logistics, packaging, payments, and credit-card services, aligning priorities, handoffs, risks, and execution.
- Established an operating center and recruited, trained, and managed approximately 20 employees while using sales and operational data to improve performance and processes.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022

SKILLS & TOOLS

R&D Project Delivery: Scope, requirements, plans, workstreams, dependencies, risks, testing, release readiness, Agile/Scrum, Jira, Figma

Operations & Data: Workflow design, process improvement, KPIs, GA4, Firebase, reporting, SAP R/3, Excel, vendor coordination

Leadership, AI & Languages: Cross-functional facilitation, Claude, ChatGPT, Cursor, Codex | Hebrew: Native; English: Fluent
