PROGRAM MANAGER | INTERNAL AI PRODUCTS, ADOPTION & DELIVERY

PROFESSIONAL SUMMARY

Program, Project, and Product Manager with experience leading complex software, implementation, and operational initiatives across parallel workstreams. Converts priorities into requirements, delivery plans, dependencies, risks, acceptance criteria, adoption workflows, and measurable follow-through. Coordinates Engineering, UX, QA, Data, business teams, senior stakeholders, and external vendors using Jira and Figma. Uses Claude, ChatGPT, Cursor, and Codex hands-on for research, specifications, documentation, workflow exploration, prototypes, and feasibility checks. Brings additional change, training, process-design, and Go-Live experience from SAP implementation and founder-led operations.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own roadmap, backlog, and end-to-end delivery for a B2B SaaS product, coordinating parallel initiatives from discovery and scoping through launch, measurement, and iteration.
- Translate company priorities and user, Support, Sales, business, and operational input into clear workstreams, requirements, acceptance criteria, dependencies, and tasks.
- Coordinate Engineering, UX, QA, Data, Marketing, Operations, senior stakeholders, and vendors on sequencing, risks, blockers, testing, release readiness, and adoption.
- Maintain visibility across onboarding, verification, activation, subscriptions, payments, analytics, and external integrations, documenting decisions and cross-team handoffs.
- Use GA4, Firebase, support signals, defects, and operational data to identify trends, guide priorities, and support outcome-oriented reviews and continuous improvement.
- Use Claude, ChatGPT, Cursor, and Codex for research, specifications, documentation, UX exploration, workflow prototypes, and technical feasibility validation.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and managed a D2C eCommerce business, coordinating product development, customer experience, suppliers, fulfillment, staffing, budget, service, and go-to-market execution.
- Created procedures and trained teams across supplier intake, order handling, fulfillment, delivery, returns, customer service, reporting, and exception management.
- Managed multiple vendors and workstreams across software, marketing, logistics, packaging, payments, and operations, aligning priorities and accountable handoffs.
- Established an operating center and recruited, trained, and managed approximately 20 employees while using operational data to improve performance and processes.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022

SKILLS & TOOLS

Program & Adoption: Cross-functional workstreams, scope, dependencies, risks, release readiness, training, process design, Jira, Figma

Data & Technical: GA4, Firebase, KPIs, reporting, APIs, integrations, SAP R/3, acceptance testing, basic SQL

AI Tools & Languages: Claude, ChatGPT, Cursor, Codex, research, documentation, prototyping | Hebrew: Native; English: Fluent
