SENIOR PROJECT MANAGER | SAAS, ERP & INTEGRATIONS

PROFESSIONAL SUMMARY

Project, Product, and Delivery Manager with experience leading SaaS, ERP, digital-product, integration, and operational initiatives from requirements and planning through testing, onboarding, training, Go-Live, and continuous improvement. Coordinates parallel workstreams across Engineering, UX, QA, Data, business stakeholders, Operations, customers, and vendors while tracking scope, dependencies, risks, budgets, and readiness. Brings hands-on SAP R/3 implementation, payment and CRM integrations, acceptance testing, process documentation, and training experience. Combines technical fluency with practical ownership of service delivery and operational outcomes.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own strategy, roadmap, and end-to-end delivery for a B2B SaaS product, coordinating initiatives from discovery and requirements through development, release, measurement, and iteration.
- Run parallel workstreams across onboarding, verification, subscriptions, payments, analytics, CRM, and external integrations while tracking scope, dependencies, risks, blockers, and readiness.
- Align Engineering, UX, QA, Data, Marketing, Support, Sales, Operations, senior stakeholders, and vendors on priorities, tradeoffs, delivery plans, acceptance criteria, and outcomes.
- Led API integrations with Green Invoice, Isracard, PayMe, and CRM systems, working through documentation, requirements, flow validation, dependencies, and issue resolution.
- Use Jira and Figma for requirements and delivery coordination and GA4 and Firebase for KPI and funnel analysis; mobile traffic share increased from 10% to 60% after targeted UX and campaign-flow changes.
- Managed a year-long SAP R/3 implementation across Production and Accounting modules, coordinating requirements, testing, training, Go-Live, and post-launch support.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and led a D2C eCommerce product and operation, with responsibility for the platform, customer experience, suppliers, staffing, budget, fulfillment, service, and go-to-market execution.
- Managed multiple vendors and workstreams across software, marketing, logistics, packaging, payment processing, credit-card services, and operational delivery.
- Acted as product owner and primary client for an external development company, leading requirements, UX, delivery reviews, acceptance testing, launch, bug resolution, and new features.
- Established an operating center, recruited and managed approximately 20 employees, and created procedures for intake, order processing, picking, packing, delivery, returns, and customer service.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
