PRODUCT MANAGER | RETAIL TECHNOLOGY, OPERATIONS & END-TO-END DELIVERY

PROFESSIONAL SUMMARY

Product Manager with 5+ years of experience leading B2B/B2C digital products, supported by hands-on retail, eCommerce, operations, analytics, and project-delivery experience. Owns products from discovery and roadmap definition through requirements, UX, development, testing, launch, measurement, and iteration. At CallApp, coordinates complex SaaS journeys and integrations across technical and business teams. Previously built a D2C commerce product and its physical operating model, connecting software decisions with inventory, suppliers, fulfillment, service, staffing, and measurable day-to-day execution.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own product strategy, roadmap, backlog, and end-to-end delivery for a B2B SaaS product spanning onboarding, verification, activation, subscriptions, payments, and customer-facing workflows.
- Translate user, business, Sales, Support, and operational needs into PRDs, user stories, UX flows, business rules, acceptance criteria, edge cases, and prioritized tasks.
- Coordinate Engineering, UX, QA, Data, Marketing, Operations, senior stakeholders, and vendors on scope, dependencies, tradeoffs, testing, launch readiness, and iteration.
- Lead API integrations with invoicing, payment, and CRM providers, mapping requirements and data flows, validating end-to-end behavior, and resolving cross-system issues.
- Use GA4 and Firebase funnels, user behavior, defects, and support signals to guide product decisions; mobile traffic share increased from 10% to 60% after UX and campaign-flow changes.
- Use AI-assisted research, documentation, UX exploration, prototypes, and feasibility checks to clarify solutions and support technical delivery.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a D2C eCommerce product connecting farmers directly with consumers, owning the digital platform and the complete retail operating model supporting it.
- Built workflows across supplier intake, inventory decisions, order processing, picking, packing, delivery, returns, customer service, payment processing, and exception handling.
- Established an operating center and recruited, trained, and managed approximately 20 employees while improving processes through customer, sales, and operational data.
- Defined the product and managed an external development company from requirements and UX through acceptance testing, launch, bug resolution, changes, and new features.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
