AI PRODUCT MANAGER | CUSTOMER SOLUTIONS, TECHNICAL DELIVERY & EXECUTION

PROFESSIONAL SUMMARY

Product Manager with 5+ years of experience leading B2B/B2C digital products and technical delivery from customer and business discovery through specifications, prioritization, implementation, validation, and iteration. At CallApp, owns complex SaaS journeys and multi-system integrations while coordinating Engineering, UX, QA, Data, Sales, Support, and vendors. Uses Claude, ChatGPT, Cursor, and Codex hands-on for research, requirements, documentation, UX exploration, prototypes, and feasibility checks. Brings fast learning, structured tradeoff decisions, technical fluency, and founder-level accountability in fast-moving product environments.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own product strategy, roadmap, backlog, and end-to-end delivery for a B2B SaaS product spanning onboarding, verification, activation, subscriptions, payments, and customer-facing workflows.
- Translate customer, Sales, Support, business, and operational needs into PRDs, user stories, UX flows, acceptance criteria, edge cases, priorities, and delivery decisions.
- Coordinate Engineering, UX, QA, Data, Marketing, Operations, senior stakeholders, and external vendors on requirements, tradeoffs, dependencies, defects, and release readiness.
- Lead API integrations with Green Invoice, Isracard, PayMe, and CRM systems, reading documentation, mapping data flows, validating end-to-end behavior, and resolving issues.
- Use GA4 and Firebase data, user behavior, support signals, and defects to diagnose friction and guide iterations; mobile traffic share increased from 10% to 60% after UX and campaign-flow changes.
- Use Claude, ChatGPT, Cursor, and Codex to research solutions, structure requirements, draft specifications, explore UX, create working prototypes, and support feasibility validation.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a D2C eCommerce product, owning the platform, customer experience, operations, suppliers, staffing, budget, go-to-market, and daily execution.
- Worked directly with customers and operational users to identify problems, turn feedback into requirements, prioritize solutions, and evaluate results after release.
- Defined the product and managed an external development company from UX planning and requirements through delivery, acceptance testing, launch, bug resolution, and new features.
- Managed fast-moving decisions and dependencies across technology, marketing, logistics, payments, fulfillment, service, reporting, and external vendors.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
