CORE B2B PRODUCT MANAGER | MODULAR WORKFLOWS, UX & APIS

PROFESSIONAL SUMMARY

Product Manager with 5+ years of experience across B2B and B2C digital products, complex workflows, 0-to-1 development, customer discovery, UX, analytics, API integrations, and cross-functional execution. Owns products from ambiguous problems and roadmap definition through requirements, prototypes, delivery, launch, measurement, and iteration. At CallApp, leads multi-step onboarding, verification, subscription, payment, and integration journeys. Earlier founder/operator experience adds hands-on platform creation, external development management, operational systems, and practical judgment in simplifying complex user and business processes.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own product strategy, roadmap, and end-to-end delivery for a B2B SaaS product spanning onboarding, verification, activation, subscriptions, payments, and customer-facing workflows.
- Translate customer, business, Support, Sales, and operational needs into PRDs, modular workflows, business rules, UX flows, acceptance criteria, edge cases, and priorities.
- Coordinate Engineering, UX, QA, Data, Operations, senior stakeholders, and vendors on product structure, dependencies, testing, release readiness, and iteration.
- Lead API integrations with invoicing, payment, and CRM systems, mapping data flows and dependencies, validating end-to-end behavior, and resolving issues.
- Use GA4, Firebase, user behavior, support signals, defects, and operational data to identify friction and guide improvements across complex workflows.
- Use Claude, ChatGPT, Cursor, and Codex for discovery, specifications, documentation, UX exploration, working prototypes, and technical feasibility validation.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a D2C eCommerce product connecting farmers directly with consumers, owning the platform, customer journey, operations, suppliers, staffing, budget, and go-to-market execution.
- Used direct customer feedback, service interactions, user behavior, sales trends, and operational data to identify friction, prioritize changes, and improve the end-to-end experience.
- Defined the product and managed an external development company from UX planning and requirements through delivery, acceptance testing, launch, bug resolution, and iterative improvements.
- Built and improved workflows across customer acquisition, order handling, fulfillment, delivery, support, supplier coordination, reporting, and operational handoffs.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
