PRODUCT & PROJECT MANAGER | DIGITAL DELIVERY, UX & ANALYTICS

PROFESSIONAL SUMMARY

Product and Project Manager with hands-on experience leading B2B and B2C digital products and initiatives from discovery and requirements through UX, development, QA, launch, measurement, and continuous improvement. Translates user, business, and operational needs into clear specifications, workflows, user stories, acceptance criteria, and prioritized tasks. At CallApp, coordinates Engineering, UX, QA, Data, Marketing, Support, Sales, Operations, senior stakeholders, and vendors across complex web and mobile-oriented journeys. Combines structured delivery with GA4 and Firebase analytics and practical founder/operator judgment.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own roadmap and end-to-end delivery for a B2B SaaS digital product, coordinating initiatives from discovery and requirements through UX, development, QA, launch, KPI tracking, and iteration.
- Translate customer, user, Support, Sales, business, and operational needs into PRDs, specifications, workflows, user stories, business rules, acceptance criteria, edge cases, and prioritized tasks.
- Coordinate Engineering, UX, QA, Data, Marketing, Support, Sales, Operations, senior stakeholders, and external vendors using Jira and Figma, aligning scope, dependencies, blockers, testing, and release readiness.
- Lead parallel workstreams across onboarding, business profiles, verification, activation, subscriptions, payments, analytics, and integrations while maintaining clear ownership and delivery follow-through.
- Use GA4 and Firebase funnels, user behavior, defects, support signals, and market research to identify friction and prioritize improvements; mobile traffic share increased from 10% to 60% after mobile UX and campaign-flow changes.
- Led API integrations with Green Invoice, Isracard, PayMe, and CRM systems, reading technical documentation, defining requirements, mapping flows and dependencies, validating end-to-end behavior, and resolving issues.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and led a D2C eCommerce digital product and operation, with responsibility for the platform, customer journey, suppliers, staffing, budget, service, fulfillment, and go-to-market execution.
- Defined requirements and managed an external development company from UX planning and delivery through acceptance testing, launch, bug resolution, post-launch changes, and new features.
- Analyzed customer feedback, user behavior, sales, service, and operational data to identify friction, improve digital journeys and workflows, and prioritize product changes.
- Built operating procedures and coordinated vendors across software, marketing, logistics, packaging, payments, and credit-card services, aligning handoffs, issue resolution, and day-to-day execution.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.
