SENIOR PRODUCT MANAGER | ECOSYSTEMS, APIS & STRATEGIC INTEGRATIONS

PROFESSIONAL SUMMARY

Product Manager with 5+ years of experience across B2B SaaS, digital products, API integrations, external vendors, and cross-company delivery. Owns products from discovery and roadmap definition through requirements, UX, development, launch, measurement, and iteration. At CallApp, leads multi-system onboarding, verification, subscription, payment, and CRM-related flows, coordinating technical and business stakeholders. Combines integration fluency, structured partner communication, customer and operational insight, and founder-level accountability to turn external dependencies into clear product capabilities and reliable end-to-end experiences.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own strategy, roadmap, and end-to-end delivery for a B2B SaaS product spanning onboarding, verification, activation, subscriptions, payments, and business-profile management.
- Lead integrations with Green Invoice, Isracard, PayMe, and CRM systems, reading documentation, mapping requirements and data flows, coordinating vendors, and validating end-to-end behavior.
- Translate customer, partner, Sales, Support, and business needs into PRDs, integration requirements, user stories, UX flows, acceptance criteria, edge cases, and priorities.
- Align Engineering, UX, QA, Data, business teams, senior stakeholders, and external providers on scope, dependencies, tradeoffs, defects, release readiness, and follow-up.
- Use GA4, Firebase, support signals, and operational insights to identify integration and journey friction, prioritize improvements, and validate outcomes after release.
- Use AI-assisted research, documentation, UX exploration, prototypes, and technical feasibility checks to clarify partner options and accelerate decisions.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a D2C eCommerce product connecting farmers directly with consumers, owning the platform and coordinating the supplier, logistics, payment, and service ecosystem behind it.
- Managed software, marketing, logistics, packaging, payment-processing, and credit-card vendors, aligning requirements, commercial needs, operational dependencies, and issue resolution.
- Defined requirements and managed an external development company from UX planning through delivery, acceptance testing, launch, bug resolution, changes, and new features.
- Designed cross-party workflows across supplier intake, order processing, fulfillment, delivery, returns, customer service, reporting, and operational handoffs.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
