CUSTOMER EXPERIENCE PROJECT MANAGER | JOURNEYS, ANALYTICS & DELIVERY

PROFESSIONAL SUMMARY

Customer Experience, Product, and Project Manager with hands-on experience improving digital journeys, service workflows, and operational processes from discovery and requirements through UX, delivery, measurement, and iteration. At CallApp, owns onboarding, verification, activation, subscription, payment, and support-related journeys while coordinating Product, Engineering, UX, QA, Data, Support, Sales, and Operations. Uses GA4, Firebase, KPIs, customer feedback, and verified AI-assisted research and documentation workflows to identify friction, structure priorities, and support practical process improvement.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own roadmap and end-to-end delivery for B2B SaaS customer journeys spanning onboarding, verification, activation, subscriptions, payments, support signals, and continuous improvement.
- Translate customer feedback, user behavior, Support, Sales, business, and operational needs into journey maps, requirements, UX flows, user stories, acceptance criteria, and prioritized tasks.
- Coordinate Engineering, UX, QA, Data, Marketing, Support, Sales, Operations, stakeholders, and vendors on dependencies, blockers, quality, release readiness, and measurable follow-through.
- Use GA4 and Firebase funnels, KPIs, user behavior, defects, and support signals to identify journey friction and prioritize improvements across web and mobile-oriented experiences.
- Lead integrations with invoicing, payment, and CRM systems, mapping customer and operational flows, validating end-to-end behavior, and resolving cross-system issues.
- Use Claude, ChatGPT, Cursor, and Codex for research, specifications, documentation, UX exploration, working prototypes, and technical feasibility validation.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a D2C eCommerce product, owning customer journeys, service, suppliers, fulfillment, staffing, budget, and the operational processes supporting reliable delivery.
- Defined requirements and managed an external development company from UX planning and delivery through acceptance testing, launch, bug resolution, post-launch changes, and new features.
- Analyzed customer feedback, user behavior, sales, service, and operational data to identify friction, improve digital journeys and workflows, and prioritize product changes.
- Built operating procedures and coordinated vendors across software, marketing, logistics, packaging, payments, and credit-card services, aligning handoffs, issue resolution, and day-to-day execution.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
