PRODUCT MANAGER | B2B2C, WEB EXPERIENCES & AI-ASSISTED DELIVERY

PROFESSIONAL SUMMARY

Product Manager with 5+ years of experience across B2B SaaS, B2C, and B2B2C digital products, interactive web and mobile journeys, API integrations, user flows, analytics, and end-to-end delivery. At CallApp, owns strategy and roadmap for onboarding, verification, activation, subscriptions, payments, and business-profile experiences, translating ambiguous needs into clear specifications, UX flows, edge cases, and shipped capabilities. Combines customer-facing product work, global-market execution, technical fluency, and hands-on use of AI tools for discovery, requirements, UX exploration, prototypes, and feasibility validation.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own product strategy, roadmap, prioritization, and end-to-end delivery for a B2B SaaS product serving businesses and their end users across web and mobile-oriented experiences.
- Translate customer, business, Support, Sales, and operational needs into PRDs, specifications, business rules, user stories, UX flows, acceptance criteria, edge cases, and actionable priorities.
- Lead interactive user journeys across onboarding, verification, activation, subscriptions, payments, analytics, and business-profile management from discovery through launch and iteration.
- Partner with Engineering, UX, QA, Data, Marketing, Support, Sales, Operations, senior stakeholders, and external vendors to move initiatives from concept through delivery and measurable outcomes.
- Use GA4 and Firebase funnels, support signals, defects, market research, and operational insights to identify friction; mobile traffic share increased from 10% to 60% following mobile UX and campaign-flow changes.
- Use Cursor, Claude, ChatGPT, and Codex for discovery, research, requirements, UX exploration, working prototypes, documentation, and technical feasibility validation.
- Supported product launches and market adaptations across Latin America, Spain, and Africa, coordinating product, operational, and customer-facing requirements for global execution.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a D2C eCommerce product, with end-to-end ownership of the digital platform, customer journey, pricing, payments, suppliers, staffing, budget, service, fulfillment, and go-to-market execution.
- Designed and improved user flows across product discovery, checkout, order processing, fulfillment, delivery, returns, customer service, payment processing, and reporting.
- Defined requirements and managed an external development company from UX and delivery through acceptance testing, launch, bug resolution, changes, and new features.
- Used customer feedback, user behavior, sales, service, and operational data to improve the end-to-end experience and prioritize product and workflow improvements.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
