PRODUCT MANAGER | PAYMENTS, APIS, BACK-OFFICE & UX

PROFESSIONAL SUMMARY

Product Manager with 5+ years of experience across B2B and B2C digital products, payments, subscriptions, APIs, back-office workflows, customer journeys, UX, and data-driven optimization. Owns products from discovery and roadmap definition through requirements, delivery, launch, measurement, and iteration. At CallApp, leads onboarding, verification, activation, subscription, payment, invoicing, and CRM flows. Earlier founder/operator experience adds hands-on ownership of eCommerce, payment processing, service, fulfillment, vendors, and daily digital operations.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own product strategy, roadmap, and delivery for branded and verified caller identity experiences across business-facing web journeys and a consumer mobile ecosystem.
- Lead onboarding, phone verification, business-profile creation, activation, subscription, payment, manage-state, and customer-facing flows from discovery through launch and iteration.
- Translate user behavior, business needs, Support and Sales input, and operational constraints into PRDs, product specifications, UX flows, user stories, acceptance criteria, edge cases, and priorities.
- Led API integrations with Green Invoice, Isracard, PayMe, and CRM systems, mapping requirements and dependencies, validating end-to-end behavior, and resolving issues.
- Use GA4 and Firebase funnels, user behavior, defects, support signals, and market research to identify friction and prioritize improvements; mobile traffic share increased from 10% to 60% after mobile UX and campaign-flow changes.
- Align Engineering, UX, QA, Data, Marketing, Operations, senior stakeholders, and vendors on tradeoffs, delivery, release readiness, and measurable outcomes.
- Use Claude, ChatGPT, Cursor, and Codex for discovery, requirements, user-flow exploration, working prototypes, documentation, and feasibility validation.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a D2C eCommerce product connecting farmers directly with consumers, owning the storefront, customer journey, pricing, payments, operations, suppliers, staffing, budget, and go-to-market execution.
- Used customer feedback, user behavior, sales trends, and operational data to improve product discovery, purchase journeys, service delivery, and fulfillment workflows.
- Defined the product and managed an external development company from UX planning and requirements through delivery, acceptance testing, launch, bug resolution, and new features.
- Managed technology, logistics, packaging, payment-processing, credit-card, marketing, and customer-service vendors across parallel workstreams.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and process improvements for an industrial product line.
- Collaborated across operations, planning, business, and technical stakeholders and built analytical tools and reports supporting data-driven decisions and cost reduction.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory monitoring, supplier coordination, exception handling, and VMI oversight; wrote work manuals and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting modules, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and post-launch support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
