PROJECT MANAGER | INFORMATION SYSTEMS, REQUIREMENTS & IMPLEMENTATION

PROFESSIONAL SUMMARY

Project, product, and operations manager experienced in software, information systems, ERP, integrations, digital products, and business-process initiatives. Leads delivery from business needs and process analysis through requirements, work plans, development coordination, testing, implementation, measurement, and improvement. Brings B.Sc. Industrial Engineering and Management, hands-on SAP R/3 implementation, analytical reporting, and cross-functional vendor leadership.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own end-to-end delivery for a B2B SaaS product across discovery, process definition, requirements, planning, development, QA, launch, measurement, and iteration.
- Translate business, customer, Support, Sales, and operational needs into process flows, system requirements, specifications, user stories, acceptance criteria, and tasks.
- Run parallel workstreams across onboarding, verification, subscriptions, payments, analytics, and integrations while tracking timelines, dependencies, blockers, and readiness.
- Lead integrations with invoicing, payment, and CRM systems, mapping business and data flows, validating behavior, and resolving cross-system issues.
- Coordinate Engineering, UX, QA, Data, Operations, business leaders, users, and vendors using Agile/Scrum, Jira, Figma, Monday.com, and MS Project.
- Use GA4, Firebase, KPIs, user behavior, defects, and support signals to analyze friction, report status, and guide process and product improvements.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and operated a DTC eCommerce business, owning its platform, operating processes, suppliers, staffing, service, budget, and delivery execution.
- Built procedures across order intake, fulfillment, delivery, returns, service, reporting, payments, supplier coordination, and exception management.
- Defined requirements and managed an external development company through UX, planning, implementation, testing, launch, changes, and new features.
- Recruited and managed approximately 20 employees and coordinated technology, logistics, marketing, packaging, payment, and service vendors.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and measurable process improvements.
- Partnered across operations, planning, business, and technical teams and built reports supporting decisions, cost reduction, and stakeholder visibility.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory, suppliers, exceptions, and VMI oversight; documented processes and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
