SENIOR PRODUCT MANAGER | B2C GROWTH, CUSTOMER JOURNEYS & LAUNCH

PROFESSIONAL SUMMARY

Product Manager with 5+ years across B2C/DTC products, B2B SaaS, founder-led 0-to-1 delivery, customer journeys, launches, growth, and operational ownership. Turns customer and market insight into product strategy, roadmaps, requirements, UX, cross-functional delivery, success metrics, and iteration. Combines current web/mobile product leadership with direct eCommerce, commercial, service, and go-to-market experience.

PROFESSIONAL EXPERIENCE

CallApp | Product Manager, Branded & Verified Caller Identity | March 2023 - Present

- Own product strategy, roadmap, and end-to-end delivery for a B2B SaaS product that serves businesses and end users across web and mobile-oriented experiences.
- Lead onboarding, verification, activation, subscription, payment, manage-state, and failure-state journeys from customer insight and UX through launch and iteration.
- Translate customer feedback, market research, Support, Sales, and operational signals into PRDs, workflows, user stories, acceptance criteria, and backlog priorities.
- Use GA4, Firebase, funnels, user behavior, support signals, and defects to identify friction, define success measures, and guide post-launch optimization.
- Improved mobile UX and aligned campaign flows with user behavior, increasing mobile traffic share from 10% to 60% while coordinating product delivery and rollout.
- Align Engineering, UX, QA, Data, Marketing, Sales, Support, Operations, leaders, and vendors on tradeoffs, launch readiness, rollout, and measurable outcomes.

Tapuhi | Founder, Product & Operations Manager | January 2017 - December 2022

- Founded and grew a DTC eCommerce product from market need through platform definition, launch, customer acquisition, fulfillment, service, and continuous improvement.
- Owned complete customer journeys, checkout, pricing, payments, suppliers, delivery, customer service, budget, and go-to-market execution.
- Defined the product and managed an external development company through UX, requirements, implementation, acceptance testing, launch, issues, and new features.
- Used customer feedback, sales trends, service data, and operational insight to identify needs, improve journeys, prioritize changes, and support commercial decisions.

HP (HPE) | Business Analyst | January 2015 - December 2016

- Gathered business requirements, modeled operational data, and translated complex production inputs into clear workflows, analytical tools, and measurable process improvements.
- Partnered across operations, planning, business, and technical teams and built reports supporting decisions, cost reduction, and stakeholder visibility.

HP (HPE) | Material Planner Analyst | January 2013 - December 2014

- Managed supply-chain planning across six operational divisions, including inventory, suppliers, exceptions, and VMI oversight; documented processes and trained four logistics specialists.

SAP WIN | Project Manager | February 2012 - January 2013

- Managed a year-long, on-site SAP R/3 implementation across Production and Accounting, leading requirements, work planning, developer-user coordination, testing, training, Go-Live, and support.

EDUCATION

Ben-Gurion University of the Negev | B.Sc. in Industrial Engineering & Management | 2008 - 2012

Coding Academy Israel | Full-Stack & Frontend Development | July - November 2022
